**ABOUT SIR FRANCIS DRAKE, ALSO
"SAUSAGES AND CHAMPAGNE"**

Many of the English towns have quaint feasts; most of them are founded upon some historic incident of past days. The "Fishyng Feaste" is held every August at Plymouth. It commemorates the deeds of Francis Drake, to whose enterprise the town owes its water supply. "To the pious memory of Sir Francis Drake" is first drunk in water from two golden goblets, which, afterwards refilled with champagne are emptied to the toast, "May the descendants of him who gave us water never want wine."

Sausages and champagne are Peterborough's specialty. Every October at Bridge fair time, the mayor and corporation proceed in solemn procession to the bridge beneath which flows the Nen. There a halt is called and the town crier declares the Fair open, both in Northamptonshire and Huntingdonshire. Having transacted the official business of the day, the mayor and his guests adjourn to a neighboring hotel, where a repast consisting of the very choicest brands of sausages and champagne awaits them.

Of late years the sausages used are the well-known delicacy yeclpt "Cambridge" and the champagne is G. H. Mumm & Co.'s "Selected Brut" or "Extra Dry," which also of recent years, has been used at the Plymouth feast.

**SEEK LEASE
OF ELEVATORS**

Manitoba Farmers Desirous of
Handling All Their
Own Grain

**FROM PRODUCER
TO ULTIMATE MARKET**

Proposals Laid Before C. P. R.
to Take Over Fort William
Elevators

WINNIPEG, Oct. 8.—"There is a strong probability that the C. P. R. terminal elevators at Fort William will be operated by the Manitoba Grain Growers' Association, and that the farmers' wheat of Western Canada will be handled through these elevators next season. The capacity of the C. P. R. elevators is, I believe, about nine million bushels, and with these in our hands, the farmers of Western Canada will have all the necessary equipment to take the grain from the producers and land it at Liverpool, or the consuming market, and at the same time be assured that the grain will arrive on the other side, or in Eastern Canada markets, in its original state, namely, as it left the farmers' hands."

This was the statement made today by D. W. McCuaig, president of the Manitoba Grain Growers' Association. Mr. McCuaig was in the city yesterday looking into the details of the duplicate sampling system of the farmers' cars shipped to the farmers' agency. This sampling system is being operated under the supervision of the Manitoba Grain Growers' Association.

In speaking of the negotiations with the C. P. R. for the purpose of securing a lease of the Fort William elevators, Mr. McCuaig said: "This advanced move on the part of the grain growers is merely a step, albeit a strong one, in the organization which the farmers of the West are making for the handling of their own grain. It is true that the farmers, by co-operation, have secured redress for many of their grievances; but there is still much to be done. We have for a number of years been dissatisfied with the methods pursued by certain dealers, who handle a large part of the Western grain. There is a strong feeling throughout the entire West among the farmers that they must have a complete mechanism for wheat marketing under their own control."

"With this in view, on behalf of the Grain Growers' Association, I approached Mr. Langman, of the C. P. R., early in August, and had a lengthy discussion with him, which was followed by subsequent interviews. Later he referred the subject to William Whyte, second vice-president of the C. P. R. On October 5th I received the following letter from Mr. Whyte:

"D. W. McCuaig, President, M. G. G. A., Portage La Prairie, Man.
"Dear Sir,—I am a recipient of your favor, 22nd ult., a reply to which has been delayed owing to my absence from the city."

"The season is so far advanced now that it would not be convenient to lease any of our terminal elevators this year. In any event, we should not care to lease a single elevator, and I should be glad to know if you have any proposition to make in respect to taking over all our elevators at Fort William, so that if we decide to lease them all the negotiations could be undertaken and arrangements completed to handle next year's crops. (Signed) W. Whyte, Second Vice-President."

"That is how the matter stands at the present time," said Mr. McCuaig. "Negotiations will, of course, be continued with the C. P. R. during the winter, and developments are probable before the movement of another crop."

Baptist University

TORONTO, Oct. 8.—Chancellor McKay announced tonight that certain western colleges were going to affiliate with McMaster University and form a great Baptist teaching university.

Aged Priest Badly Burned

NEWARK, N. J., Oct. 8.—The Rev. Aug. M. Brady, curate of the Newark, N. J., church, and a home for the aged, and in former years one of the Paulist missionaries of the country, was so badly burned at his home today that it is feared he will not survive. He was passing from the bathroom when a light muffle around his throat was ignited by the candle he carried. The flames spread to his bathrobe and before help reached him he was terribly burned. Father Brady is 67 years old and a native of Newark city.

Centenarian Vagrant

KINGSTON, Ont., Oct. 8.—Mary Ellen Carr, who claims to be 105 years of age, doubled with years and almost blind, but yet very querulous, was helped into the police court this morning. She had been gathered in as a vagrant. She had a home in the house of industry, but because so abusive to the police that the police had to be called in. She has four daughters and two sons, but they have abandoned her. The centenarian will be given medical aid and another chance at the house of industry.

Papke Beats Lewis

PITTSBURG, Oct. 8.—Before the largest crowd assembled in recent years to witness a boxing contest in this city, Billy Papke, the Illinois thunderbolt, and Willie Lewis, the New York City fighting newboy, went six rounds at the National Sporting club's world's boxing show tonight. Papke easily got the verdict. He had Lewis going in every round and put Lewis down for the count of nine.

MUCH BUDGET TALK

Visitors From England Refer to Subject Now Engrossing Attention of Mother Land

MONTREAL, Oct. 8.—Timothy Davis, Liberal M. P. for Fulham, arrived in the city today from England. Regarding the budget he said he was convinced that it would be passed by the House of Lords, because if it does not, he said, there will no longer be any House of Lords.

Philip Bright, son of the great John Bright, also arrived in the city. He is on his way to the United States. He regarded the position of looker-on as the only one to assume here in connection with the budget situation, feeling that Canadians are too far away to give them a proper understanding of affairs in the Old Country.

"Leave me at home," he concluded, "is fearfully excited about the budget."

Old Toronto Merchant Dead

TORONTO, Oct. 8.—Thomas Thompson, formerly of the drygoods establishment, known as the Mammoth House, on King street East, and one of Toronto's oldest business men, died this morning at the age of 78 years. Mr. Thompson leaves a widow, who was formerly a Miss Corbett, and four sons, one of whom is George T. Thompson, a barrister residing in Cranbrook, B. C. The deceased gentleman was a Reformer in politics, and contested West Toronto in that interest against the late John Small in 1882. He was defeated.

Preston on Missions

PORT HOPE, Ont., Oct. 8.—W. T. R. Preston in an interesting address in St. Paul's church tonight warned the Christian missionary world that in ten years the opportunity of amending their present missionary policy in Japan would not be available. The Christian world still looked upon the Japanese as heathen in the savage sense, and did not recognize their wonderful intelligence. Christianity had been tacked on to education and civilization. In Japan the native missionaries were underpaid, and the cause was losing ground. He asked the western world to treat the problem seriously.

**ONTARIO POWER
CONTROVERSY**

Dominion Government Asked to
Veto Acts or Test Validity
in Courts

OTTAWA, Oct. 8.—A deputation composed of Messrs. German, M. P. for Welland, F. H. Chrysler, K. C., Ottawa, and J. C. Moss, K. C., Toronto, waited upon a sub-committee of the British Empire League today to ask that the power acts of the Ontario legislature be disallowed, or, failing this, that the legislation be referred to the Supreme Court in order to test its validity. The petitioners argued that as the Niagara river is under the jurisdiction of the federal government, and that the provincial government has no right to divert water for power purposes.

It was alleged, first, that the acts were unconstitutional in purporting to give the electric development commission power to create private electricity from water in the Niagara river, said to be controlled by the Queen Victoria Niagara Falls park commission, under authority of an Ontario charter, when in fact the control of the river as a navigable and a boundary river is vested exclusively in the Dominion government; and, second, that the proceeding acts were therefore unconstitutional, and hence the assumption by the province of the power to start competition against the Electrical Development company, in which millions of British capital are invested, was unconstitutional and invalid and detrimental to the public credit of Canada as a whole.

Mr. German and Mr. Moss supported Mr. Chrysler's argument. Mr. German appeared also on behalf of a number of his constituents through whose property the proposed power transmission lines run, and whose claims for compensation have not yet been settled by the hydro-electric commission.

The legal points involved in the case were presented at considerable length, and the government was asked either to veto the Ontario legislation on the grounds set forth or else to allow an appeal being taken to the Supreme Court to test its validity, the attorney general of Ontario having refused a flat to Major Murray to allow the case to come before the Ontario courts.

Sir Wilfrid Laurier and Mr. Pugsley promised that the government would consider the case with due consideration.

Hon. A. B. Aylesworth, Minister of Justice, is expected back in the capital from London tomorrow, and his opinion on the constitutional points at issue will be asked. The federal government under the British North America act is allowed a year's time in which to veto any provincial act deemed to be unconstitutional or contrary to the public interest.

Winnipeg's Fair Project

WINNIPEG, Oct. 8.—Two delegations will leave Winnipeg next week to confer with the governments of Alberta and British Columbia in relation to the part these provinces are to take in Canada's international exposition. The Alberta conference will take place on Thursday next, and the delegates from Winnipeg will be D. C. Cameron, William Whyte, John W. Dunlop, T. A. Anderson, and N. H. Hutchinson. Mayors R. B. Jamieson, of Calgary, and Robert Lee, of Edmonton, have been invited to meet the Winnipeg delegation at Edmonton, also president A. C. Fraser, of the Edmonton board of trade, and A. E. Cross, of the Calgary board of trade. The British Columbia delegates are R. E. Sprague, H. H. Sutherland, J. Y. Reiss, and R. C. McDonald. Mayors Lewis Hall, of Victoria, and Douglass, of Vancouver, have been invited to attend the conference. The delegates of the Victoria board of trade, this conference will be on Friday at Victoria.

**OPPOSED TO
COMPROMISE**

Liberal Ministers Make Positive Declaration in Regard to Budget

**HOUSE OF LORDS
MUST NOT INTERFERE**

Premier Asquith Leaves Balmoral After Long Talk With King

LONDON, Oct. 8.—At least some members of the cabinet are opposing any compromise such as has been suggested by King Edward to prevent a constitutional crisis over the budget.

Winston Spencer Churchill, president of the board of trade, speaking tonight at the National Liberal Club, declared that the government would make no overtures to the House of Lords, and would accept no compromise, and that no amendment to the finance bill by the upper house would be entertained.

The House of Lords, Mr. Churchill added, had no right to interfere in any way with the financial business of the government, directly or indirectly, and that the Liberals, having a united party and a resolute prime minister, were ready for the conflict if it were forced on them.

Lord Loreburn, Lord High Chancellor, who followed Mr. Churchill, said he refused to believe that the House of Lords would take a step which would lead to a most grave conflict, and at the same time place the finances of the country in a state of disorder so far-reaching and serious that few persons who had not studied the subject really appreciated the extent of the possible evil.

Mr. Birrell, Chief Secretary for Ireland, in a speech at Bristol, declared that the Irish bill was as important as the budget, but he believed the House of Lords would pass the budget.

Premier Asquith left Balmoral castle for London after another lengthy conversation with King Edward.

Epicurean Sailors.

NEW YORK, Oct. 8.—When the three French warships leave this port today they will carry 54 Kentucky hogs, nine fat western steers, 600 chickens and a quantity of geese, all of which have been divided between the three ships. French sailors must have their fresh meat even while at sea, and each warship is fitted with livestock compartments and a small but effective slaughter house. The livestock is killed as wanted. Each French battleship also carries two milk cows, which supply the officers' mess with milk.

**ARMY OFFICERS
IN AEROPLANE**

Now Receiving Instructions
From Wilbur Wright in
Aviation

COLLEGE PARK, Md., Oct. 8.—For the first time in American history, an aeroplane owned by the United States government rose in the air here today, circled over the farms that nestle in the valley and sailed back to its starting point to rise again. Thus under the guiding hand of one of its inventors, Wilbur Wright, it flew five times in the dedication of the government's tract of land to aviation.

With almost ideal conditions, Mr. Wright began the flights to teach the officers of the signal corps how to handle the new machine of war he had made for them.

He left the starting rail at 3.35 o'clock and circled the field for three minutes. After two more flights of five minutes each, Lieut. Lahm took his place in the extra seat. Twice before he had ridden with Orville Wright. At 5.05 o'clock the inventor and the soldier went flying off in the air. Up they rose to the highest altitude attained during the afternoon, a height of 150 feet. They went a mile and a half towards Washington in hardly more than many minutes. In a few seconds more than five minutes they returned.

Lieut. Humphreys was then taken on his first ride in an aeroplane. It's much more pleasant than automobiling," he remarked. Flights will probably be made tomorrow and on days following until the officers are familiar with the new art.

Aeronaut Mix

BERLIN, Oct. 8.—Edward W. Mix, the American aeronaut, winner of the Gordon-Bennett trophy in the balloon races, which started from Zurich last Sunday, arrived here today from Ostroloken, Russian Poland, and left for Paris tonight.

Shot for a Deer

SARANAC LAKE, N.Y., Oct. 8.—A lamentable gunning accident occurred near here today, when Henry Lewis, proprietor of the Wayside Inn at Clear Lake Junction, was supposedly mistaken for a deer and fatally shot at Little Fishpond, 12 miles from this place.

NO PRAYER OFFERED

Disagreement With Clergyman Leads to Unusual Scene at Woman's Funeral

HAMILTON, Ont., Oct. 8.—The unusual spectacle of a body being interred in an Anglican cemetery without a word of prayer, with two ministers present, has caused gossip throughout the county. The incident took place at the funeral of Miss Fraser at Greensville. Nine years ago Miss Fraser had a disagreement with Rev. S. Bennett, her Anglican minister, and before her death she made arrangements with a Hamilton rector to take charge of the funeral. Rev. Mr. Bennett notified her that he would not stand being ignored in his own parish, and the Hamilton clergyman consequently had to step down and out. To fill up the gap the services of a Presbyterian minister were secured, and he performed funeral services at the house, but at the grave Mr. Bennett put in an appearance and refused to allow the Presbyterian minister to officiate in the cemetery, and so it came about that the body was lowered into the grave, the grave filled in, and the guests had departed without a prayer of any kind being offered by either of the two ministers of the gospel present.

U. S. Tariff and France.

PARIS, Oct. 8.—The large increase in French exports to the United States under the new tariff law is continuing. The figures for the first six days in October from the district of Consul General Masson alone show 7,000 invoices valued at \$1,471,791, as against 5,725 invoices valued at \$842,177 for the corresponding period of 1908. The increase is 70 per cent.

Economy in Chicago

CHICAGO, Oct. 8.—A cut of 10 per cent. in the salaries of all officials and employees of this city, from the mayor's \$15,000, down to that of the lowest laborer, has been agreed upon by the mayor and department heads for next year. This drastic measure was made necessary by the fact that Chicago has not money enough to maintain the payroll at its normal level. The payroll last year was approximately \$15,700,000. The cut, before becoming effective, must be sanctioned by the city council, where a big fight against it is expected.

**SUFFRAGETTES
STILL ACTIVE**

Pursue Mr. Lloyd-George to
Newcastle—Their Meeting
Disturbed

NEWCASTLE, Eng., Oct. 8.—Tonight found this city, where David Lloyd-George, the Chancellor of the Exchequer, will deliver two important budget speeches tomorrow, invaded by the suffragettes. The chancellor was escorted from the station by a strong force of police.

The suffragettes attempted to hold a meeting in the drill hall, but students and the noisy element of the city raised such a disturbance that the speakers could not be heard, and they finally broke up the meeting by throwing fireworks into the stage.

The suffragettes then proceeded to the Liberal club, through the windows of which they threw stones. Four of them were arrested.

LOVE AND TRAGEDY

Dramatic Suicide of Young French Girl on Being Jilted by Her Lover

MANLES-SUR-SEINE, France, Oct. 8.—The villa of Daniel Ridgway Knight, the American painter, at Rebeuze, overlooking the Seine was the scene of a dramatic tragedy on Wednesday.

Armande Pizenie, a 17-year-old girl known throughout the countryside for her beauty, and who served Mr. Knight in the double capacity of domestic and model, after being publicly jilted at a village ball by her lover, returned to Mr. Knight's home, took the painter's shotgun and placing the barrel under her chin, blew her head off. Mr. Knight found the body of the girl the following morning upon his return from Paris.

Before killing herself Armande wrote a pathetic letter to her father, a chimney sweep in Paris. When her lover, Gustave Fortune, heard of the tragic death of his sweetheart, he tried to kill himself.

Mr. Knight paid all the funeral expenses. He said tonight that the girl had a face of the most remarkable beauty he had ever seen.

For Stealing Jewelry

TORONTO, Oct. 8.—Geo. Daley, a waiter, is under arrest charged with stealing \$1,000 worth of jewelry, including a \$400 diamond ring, from J. Martin, of Cobalt, and Henry Mackie is also in custody charged with receiving the goods. It is alleged that Mackie sent the goods to some place in Belleville, and the police of that city have recovered them.

Aggrieved Husband

TORONTO, Oct. 8.—Benjamin Woodhouse, of Toronto has issued a writ at Osgoode hall against John Ball, formerly of the steamer Corsican, claiming \$10,000 damages for the alleged alienation by Ball of the affections of Mrs. Amy Woodhouse. Woodhouse also wants an injunction restraining Ball from living with Mrs. Woodhouse.

Damages For Prosecution

TORONTO, Oct. 8.—The jury awarded Richard Ford \$2,500 this afternoon in his action against the Canadian Express Company for \$5,000 for malicious prosecution. Last year the Express Company had Ford tried before Magistrate Denison for forgery, and before Judge Winchester in the sessions for theft. On both charges he was acquitted, and the present action is the result.

**MANY DESERT
FROM FLEET**

British Cruisers Said to Have
Left 200 of Their Men
in New York

**SIX WAR VESSELS
LEAVE FOR HOME**

Inflexible Likely to Try for
Transatlantic Record
on Voyage

NEW YORK, Oct. 8.—Six of the great foreign men of war, three British armored cruisers and three French battleships, clept out to sea through the narrows just at dusk tonight, leaving behind a great cloud of black smoke and a substantial number of their men.

Just how many of the bluejackets remained in the city for one reason or another is a matter of official knowledge only, but it was reported that 200 men from the British ships had failed to turn up for duty. Of the Frenchmen it was said that only three out of the 2,500 sailors had stayed behind.

Fleet officers remained to search for the men of both squadrons. When the British squadron visited New York several years ago it lost 300 men.

The blue-grey Inflexible, confident of her speed, remained at her anchorage tonight, giving the other three vessels of the British squadron, the Argyll, Drake and Duke of Edinburgh, nearly twenty-four hours' handicap. She expects to weigh anchor tomorrow afternoon, and under escort of the Connecticut, Vermont and Kansas, of the Atlantic fleet, will steam out of port.

Rear Admiral Hamilton, hoisting his flag on the Drake, commanded the British squadron which left today. The admiral of the fleet, Sir Edward Seymour, will leave on the Inflexible, and it is probable that his ship will try for a new transatlantic record on the run to Gibraltar.

On giving their farewell today the Britishers outdid the French in the matter of extreme courtesies. The British fired a salute of twenty-one guns as they passed Governor's Island. The French had previously passed out in silence.

LAVISHLY ENTERTAINED

Members of United States Waterways
Commission Guests at Many
Functions in London

LONDON, Oct. 8.—The members of the United States national waterways commission, of which Senator Burpee is the chairman, Senator Gallinger, of New Hampshire, the vice-chairman, and other members are Senator Simmons, of North Carolina, with Representatives D. S. Alexander, of Maryland, F. C. Stevens, of Minnesota, I. P. Wagner, of Pennsylvania, and S. M. Sparkman, of Florida, who are now in London, passed the day as guests at various social functions. Right Hon. Lewis Harcourt gave a luncheon to them in the House of Commons, which was also attended by several members of Parliament. Afterward Consul General John W. Griffiths, of London, gave a reception in their honor. Ambassador Whitlaw Reid gave a dinner for them tonight at Dorchester House, at which the members of the royal commission for canals and waterways, Senator Heyburn, of Idaho, the Right Hon. John Burns, Sir Thomas Lipton, John R. Carter, secretary of the American Embassy, and Mrs. Carter, Capt. S. A. Cloman, military attaché, and Mrs. Cloman, Commander Edward Simpson, naval attaché, and Mrs. Simpson were also guests.

TAKING POSSESSION

Ceremony of Placing Canada's Mark
on Northern Archipelago
Is Described

TORONTO, Oct. 8.—W. R. Jackson, a young Toronto man in the service of the Meteorological Bureau, arrived in Toronto this morning after being in the Arctic regions for a year.

He gave a very interesting account of the taking possession of the archipelago on the first of July before leaving their winter headquarters. A slab of rabbit meat and a half loaf of long was made, in which a mould were run the words announcing the formal possession of the land on behalf of the Canadian government.

This slab was then bolted to the huge sandstone rock on which Sir Edward Parry had carved his records, and a flag was erected with it. Then Capt. Bernier addressed the men briefly and the formal proceedings were over.

FIGHT WITH PIRATES

French Troops in Cochinchina Have
Sanguinary Struggle
With Band

SAIGON, FRENCH COCHIN CHINA, Oct. 8.—A severe fight occurred on October 3rd between a column of French troops and a band of pirates under command of a Chinaman named Detham. The pirates were put to flight. Detham was wounded, and the pirates left eight dead on the field.

The French troops lost seven Europeans killed and twenty-two wounded, including one officer, while twenty-two of the native French troops also were wounded.

Gun Accident

NAPIERVILLE, Que., Oct. 8.—Wm. Gagnon, 19 years of age, accidentally shot himself yesterday while hunting. It is supposed that while leaping over a fence the accident occurred.

UPHOLD RULING OF INSPECTOR

No Permit for Wash-house on Douglas Street Will Be Granted

The action of the building inspector in refusing to grant a permit for the erection of a Chinese laundry on Douglas street will be upheld by the city council. At last night's meeting of the city council, the building committee's decision was considered and the application for permit refused.

Building Inspector Northcott, who was present at the meeting, said that the permit was refused as the proposed wash house was in a residential district and the consent of the property owners had not been secured. The proposed building was outside of the fire district.

R. Lowe, on behalf of Wing Lung, owner of the property, contended that there was no justification for the refusal of the permit. He claimed that the residents of the district had not objected to the proposed wash house, and from a sanitary point of view there could be no objection. The building would comply in every way with the building by-law. Sanitary Inspector Lancaster also stated that the laundry, as proposed, would be sanitary. The committee upheld the action of the building inspector and refused the permit on the ground that the bylaw regulations must be observed.

Lateral Connections

James L. Itaymur, water commissioner, addressed the committee in reference to lateral connections to water mains and sewers before permanent improvement were put down. He said that in some streets as many as four hundred connections would have to be made. This would cost \$4,000 or more, and there was no money available for the work. The work could not be done under the provisions of the local improvement bylaw. The only solution to the difficulty was for the city to do the work and pay for it out of the general revenue. The question should be left over until next year when the new council could vote the necessary money.

Mayor Hall said he did not believe the city had any power to make any householder take water unless he was willing to do so.

Alderman Turner stated that the city solicitor had thought otherwise.

Alderman Rutherford said that the council should in future insist, when a local improvement petition came in, that sewer and water connections be included.

The committee decided to leave the question over for further consideration. It is hardly probable that the matter will be taken up again this year.

Hydrants Necessary

Water Commissioner Raymur asked for three new hydrants on Talmie avenue, but Chief Davis reported against these hydrants being put in as he believed they were not necessary.

Alderman Henderson said that a number of districts in the city had no hydrants, and it was necessary that this state of affairs should cease and Alderman Stewart agreed. If a serious fire occurred it was bad for the city. The committee decided to have the hydrants installed, the council municipality to pay half the cost.

James Couch asked that the improvements on Princess street be extended to Chambers street, and not end as at present proposed at Quadra street. The council will later consider the application.

Want Improvements

Rev. H. Bolton and others petitioned for a surface drain on Richardson street, but Chief Davis reported against these improvements being put in as he believed they were not necessary.

The committee considered that local improvements are necessary on this street which will include a surface drain, macadam pavement and sidewalk. The surface drain will be put in at once.

The contractors for the Wharf street pavement notified the committee that owing to the city failing to supply the bricks the work could not be done within contract time.

Engineer Topp said that the city could not get the bricks as fast as they were required.

Alderman Turner pointed out that the city undertook to supply the brick, and the contractors were not to blame because the city failed to do its share of the work.

Engineer Topp said it was time enough for the contractors to ask for an extension when the contract time, which was the end of the present month, was up. The contractors will be notified that the city will deal fairly with them.

The B. C. Sand and Gravel company will be called upon to fulfil its contract and supply 100 yards of gravel daily to the city, the city engineer reporting that the company had only supplied an average of fifty yards per day. That official also reported that \$6,000 had been taken out of the appropriation for road repairs and used on entirely new work. He wanted to know if he could get the money back. The committee could see no way in which the money could be returned at present.

LIQUOR DISCUSSED

Maritime Presbyterian Synod Hears About Wine in Governors' Residences

ST. JOHN, N. B., Oct. 8.—The Maritime Presbyterian synod this afternoon had a spirited session on liquor matters and hints at politics were not lacking. A section of the social and moral reform report re-affirmed the synod's position on prohibition, and asked the Nova Scotia and New Brunswick governments to grant prohibitory legislation, also to discontinue the use of liquor at all state functions.

Rev. Mr. Grant, of Nova Scotia, said Governor Fraser served wine in Government House, Halifax, and he was expected to.

Senator McGregor counselled moderation not only in drinking but in making charges. Rev. Mr. Grant said men had been known to come away from Government House intoxicated. Surely the synods had a right to say something.

Rev. Dr. Sedgwick said if any member of the church felt that he had a right to have wine on his table they had no right to condemn him. It was all right for the synod to recommend total abstinence, but anyone had a right to refuse to adopt it. If Governor Fraser or anyone else chose to have wine on his table he had a right to have it there.

Rev. Dr. Pringle said it was an impertinent intrusion into private matters, and until they show that the taking of liquor was a sin, they should

not pass such a resolution. The church had not made total abstinence a condition of admission.

Mr. Grant said hundreds of dollars were paid for liquor glasses and decanters in the federal house. Wine was served in Government House at all state functions, and surely it was a moral question, with which the synod had a right to deal.

Dr. Sedgwick moved an amendment that while the synod was awake to the evils of the liquor traffic they were not prepared to say whether local option or provincial prohibition was the better way of dealing with it. This was lost, and the original recommendation for prohibition carried. The section asking federal and provincial parliaments to discontinue the use of liquors at state functions was carried. A recommendation deploring the evils in social and municipal life and urging the synod's influence to procure the repeal of the character for public office was carried.

A recommendation with reference to the bar in the federal parliament which it was declared existed in spite of recent legislation, was withdrawn, as there was no evidence.

POLE CONTROVERSY

Danish Explorer Wants Unprejudiced Body to Arbitrate—Charges Made Against Peary

COPENHAGEN, Oct. 8.—Capt. Borchgrevink, the Antarctic explorer, who wintered in the southern polar region in 1900, and is about to undertake another expedition there, has expressed his opposition to the proposed submission of Dr. Cook's records to the University here and to the committee of the American Geographical Society. In the course of an interview he declares that this proceeding will not prove satisfactory because he considers that both bodies are prepossessed in favor of Dr. Cook. Capt. Borchgrevink suggests that the Geographical Society of Geneva, as an unprejudiced body, should be asked to settle the matter.

A Greenland clergyman named Ludwigs, who is a member of the Cape York Mission, and is acquainted with Dr. Cook and Commander Peary, has reiterated his opposition to the latter's claim of discovery of the North Pole. Among other charges he alleges that Commander Peary once deserted a band of women and children on the ice without food because they hindered the rapid advancement of his expedition.

MINE VICTIMS LAID AT REST

Many Funerals in Ladysmith—Official Inquiry Into Disaster

LADYSMITH, Oct. 8.—This has been a mournful day in Ladysmith, most of the citizens being engaged in the task of burying the victims of the Extension mine explosion. Ordinary business has hardly been thought of.

All day yesterday there were funerals from the different churches. The first to be held was at 11 o'clock. The funeral of the Davidson boy took place in the afternoon and Marshall's an hour later.

There were four funerals from the Roman Catholic church yesterday morning and two from the Church of England. This morning there were seven funerals from the Catholic church, including White, O'Connell, Wargo, Quinn and Dunn. Parkin was buried this noon and this afternoon the funerals of Molyneux, Selburn, W. Taylor and Thomas took place. There will be more funerals tomorrow and five will be buried at Nanaïmo.

The official examination of the mine is being actively prosecuted, and is expected within a day to determine the cause of the disaster. Next week a coroner's jury will also investigate, and it is understood that the inquiry will be made as searching as possible. In reply to J. H. Hawthorthwaite, M.P.P., Premier McBride has given assurance that every facility will be furnished to those who are interested in bringing out the facts.

Today's message was received by Ladysmith, M.P., from the Hon. W. L. Mackenzie King, Minister of Labor, as follows:

"Berlin, October 6.

"To Ralph Smith, M.P.

"Please convey to the relatives and friends of the miners lost at Extension an expression of my deepest sympathy. Please send to the Department of Labor the names of those who have risked their lives in the hope of effecting a rescue.

"W. L. MACKENZIE KING."

It is supposed from this message that the Dominion Government contemplates an acknowledgment in some manner of the heroism and self-sacrifice of the men engaged in the work of rescue.

Supt. of Chilliwack Line VANCOUVER, Oct. 8.—Allan Purvis, superintendent of the C. P. R. in the Kootenays, has been appointed superintendent of the Chilliwack branch of the B. C. Electric railway.

FUSS OVER TYING WEDDING KNOT

Quebec Marriage Laws Afford Will Crooks, M.P., an Amusing Experience

Will Crooks, the noted English labor M.P., who sailed for Australia early this morning aboard the S.S. Aorangi, related an amusing story to a Colonist representative yesterday of the difficulty which he had in arranging the nuptial of a niece of his on his arrival in Quebec recently. The story which was told in Mr. Crooks' most humorously sarcastic vein is an amusing commentary on the marriage laws which prevail in the French Canadian province.

"My wife, and niece and I," said the labor M.P., "arrived at Quebec on September 16 after a record passage from Liverpool. We were met on the wharf by the bridegroom to be, who had travelled from Liverpool. My niece, Miss Kitty Caldwell, had come from Derby to be married. My first question was 'and when is the wedding?'

"I don't know," replied the bridegroom. "I have been to the notary and he refuses to issue a license. Kitty is not twenty-one, and her father's consent is necessary."

"But I am the father in this instance," I replied. "Where is that notary?"

"So we went to the notary. He was adamant. The law of Quebec must be obeyed. He refused to issue a license. Then we betook ourselves to the Honorable the Attorney General, the Minister of Colonization, to Dean Williams. They all told us 'the law of Quebec must be obeyed.'

"Then I sallied out and went to see the Lieutenant-Governor of the province. He said some cruel things about the notary, and about the laws of Quebec, and about the life of the province, but he would not help me. He would not help me. But he wound up by telling me that there was no help for it, the father's consent must be obtained. So I cabled to England and back came the father's consent by cable, and I thought that after all the matter was now settled.

"We took the cable consent to the notary. Then the question arose, 'did consent by cable fall in line with the marriage laws?' Eminent lawyers were consulted. They wrangled and equivocated over the matter. At last they said that it might be accepted, but I must put up substantial security for the bona fides of the bride. So legal documents were produced. I entered into securities for \$4,000, and got two householders in Quebec to sign with me. But we were not yet free from the kind attentions of the authorities, for on proceeding to the church we were accompanied by the lawyers and a minister of the crown as witnesses. I suppose they were there to see that we did not impose on them by holding no marriage after all.

"I met the bride and bridegroom when I was in Vancouver. They were very happy and had forgotten all about the fuss which attended their nuptials."

Fifth Regiment to Meet

A meeting of No. 1 Company of the Fifth Regiment will be held at the drill hall on Tuesday night. All members of the company are requested to attend.

FIND MULES ALIVE

Discovery by Searchers in Roslyn Mine Gives Hope That Men May Yet Be Rescued

ROSLYN, WASH., Oct. 8.—Hope is high in the hearts of the people of Roslyn this morning that there still may be a living person in the mine shaft where the fatal explosion occurred on Sunday. The rescue parties working to recover the bodies of the five entombed miners who were the victims of the explosion in the shaft last Sunday have been working with all possible energy, and this morning at 5 o'clock, after breaking through a heavy cave-in, the party led by Mine Inspector R. F. W. Thomas, having passed the carcass of a dead mule, were greeted by the braying of the eight living mules, nearly famished.

The rescue party could hardly believe their ears, for they did not suppose that anything could exist on that moment after such an explosion as that of Sunday. Going on to the mule bar, they were further greeted by the faint mewling of a very hungry kitten, which was the mascot of the shaft, and made its home in the mule barn. The astonished rescuers quickly watered and fed the famishing animals, for it is the first drop of water or feed they have had since Sunday morning. The kitten was tenderly carried to the surface by the rescue party.

The finding of the mules and kitten alive now leads to a strong hope that John E. Jones, the young pumpman, yet lives. The station where Jones was working is over 600 feet further away from the shaft than where the mule barn is located, and if the mules survived the explosion, there seems a possibility that Jones, who perhaps Pozarich and Tomach, who were working some distance from the shaft, may still be alive. As Jones' pumping station is 2,500 feet from the shaft, many have strong hopes for him.

Lowest Death Rate on Record

NEW YORK, Oct. 8.—Although this city entertained upwards of 2,000,000 visitors last week, the death rate for that period was the lowest on record, it being 13.62 as against last year's rate of 14.55. Deaths from violence, which include all casualties and suicides, totalled 68, whereas 83 deaths under this head were recorded for the corresponding period last year. The health commissioner said that it seemed that persons were so occupied with the Hudson-Fulton celebration that they had no time to think of suicide.

Friendless Man Takes Carbolic Acid EVERETT, Oct. 8.—P. W. Schultz, whose occupation is unknown, was found by the police yesterday dead in the yard of the Riechmann Lumber Company. An empty carbolic acid bottle lay beside the body, and a tale of suicide. He was known to the police through having been in custody previously for drunkenness. No motive for the suicide is established, as Schultz apparently had neither friends nor relatives in the city who could explain his act.

Clarke & Pearson, tinmiths and stove-dealers, removed to 1313 Wharf St., near Johnson.

CLOTHES FOR BOYS AND GIRLS

The rainy season with its attendant damp, chilly feeling is upon us; therefore it is time for a change in the outer garments of the kiddies. Anything that boys wear and that your boy needs is on sale here at very reasonable price. We are also showing an exceptionally smart line of Fall and Winter Coats for girls. These goods are not only high grade quality, but each garment is the perfection of good tailoring,—extra strongly made to stand "the racket" of healthy B. C. boyhood and girlhood:

NARROW ESCAPE

Mounted Police Seeking Deserters Who Escaped Two Struck By Rail-road Train.

REGINA, Sask., Oct. 8.—Two recruits Martell and DeWife, who deserted from the R.N.W.M.P. barracks here about two months ago and who were recently captured and were serving a term of imprisonment, succeeded on Wednesday night in again effecting their escape. Their absence was not noticed until half an hour after they had got away. A large number of police immediately started on a search, some going west to Fense and Grand Coulee, others going east. Three of the search party while crossing the trestle bridge over the creek came within an ace of meeting with a serious accident. As it was the Moose Jaw local struck full into one of the horses, killing it instantly.

Hunt Club Man Dies.

TORONTO, Oct. 8.—Frederick Doane,

a member of the Hunt club who was injured last December while driving, died yesterday of his injuries. He was aged 53 and unmarried.

Why Cough

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a regular doctor's medicine for coughs and colds.

Ask your doctor if all coughs are necessary. If not, then why cough? Ask him about Ayer's Cherry Pectoral.

FINAL APPEAL

MADE TO C.P.R.

Board of Trade Urge Continuance of Double Daily Service on E. & N.

To prevent the trade which is rightfully tributary to Victoria from slipping into the hands of Vancouver merchants, and to this end to urge upon the authorities of the C. P. R. and E. & N. railroad the urgent necessity of maintaining the double daily service between here and Nanaimo, was a matter which agitated the board of trade at the quarterly general meeting held yesterday. After some discussion the following telegram was drafted and dispatched to Sir Thomas Shaughnessy, president of the C. P. R., and R. Marpole, president of the E. & N. railroad:

"Emphatic regret and disappointment expressed at a board of trade meeting at the proposed discontinuance of the double daily train service on the E. & N. railroad. Such retrograde policy will seriously injure increasing commercial relations along the line, and give other points great advantage. Once more we earnestly request the continuance of the present service. Your favorable reply anxiously awaited."

The matter was down for discussion on the agenda paper, and the necessity for strong representations being made immediately received a filip by a statement made by C. H. Lugin to the effect that the Colonist had received information from the E. & N. railroad last night that the double daily service would be definitely discontinued on October 15. Pursuant to this statement Messrs. Trewartha, James, Beaumont Boggs, L. A. Genge, Colonel Prior and others strongly endorsed the necessity of immediate representations. It was pointed out that already island points were petitioning that their mail should be delivered via Vancouver, and that this move meant the gradual slipping away of a trade belonging to Victoria.

After a discussion, at which the keenest regret at the proposed action of the railroad was evidenced, it was decided to dispatch the above telegram as a final effort to secure the continuance of the double daily service.

WORK FOR NEW OPERA HOUSE

Board of Trade Committee to Take Project in Hand

Victoria's need for a new opera house, and plans whereby it may be secured, were discussed yesterday at the quarterly meeting of the board of trade. The movement of the board in the matter is consequent on the promise of Sir Thomas Shaughnessy that the C. P. R. will give substantial monetary assistance to the scheme.

The question was brought up in the ordinary course of the meeting. President Simon Leiser stating that the C. P. R. president was fully in accord with the views of the board that a new opera house was needed in the city, and that it should be constructed as soon as possible. Mr. Plummerfelt, who was understood to have been interested in a scheme for a new theatre, was asked by the board to give his views on the subject.

He stated that a movement had been started some time ago looking towards the construction of a theatre. Nothing definite had been done. He had been approached in the matter of a site, and he gave those interested an option on a piece of property he owned on Douglas street, and also promised to buy stock in a company which it was proposed to form. The site in question was not large enough for the location of the new theatre. That scheme had fallen through. Recently three other gentlemen had approached him in the matter, and had submitted plans. He had promised to take stock in a company, whose bona fides were assured, to the extent of the price of the lot which he owned on Douglas street.

Cost of Project.

He understood that the estimated cost of the project, including the site, would be \$250,000. Any genuine scheme of this nature would have his hearty support. In his opinion, however, he did not consider that a theatre of the size contemplated would pay at present. If it formed part of a business block, it might be made a paying concern. But what was wanted was a theatre that would be a credit to the city. If the scheme was within reasonable measure of accomplishment, the matter of arranging for bookings ought to be considered, as unless bookings were made this winter for next season, Victoria would be without entertainment during 1910-1911.

Colonel Prior here suggested that the building of a large assembly hall for the holding of meetings and concerts in conjunction with the theatre might attract sufficient patronage to pay for the theatre. There was no really suitable concert hall in the city now, and such a structure would fill a want.

In a discussion which ensued, it was pointed out that Victoria as a tourist centre should provide better entertainment for the visitors who came here. The lack of a proper opera house, it was stated, would affect the traffic at the Empress hotel.

Thomas Hooper, agreed with Mr. Plummerfelt that the structure mooted must be an opera house alone. The cost, in his opinion, would be from \$100,000 to \$150,000. Personally he said he was willing to subscribe to such a project.

George Carter pointed out that there should be no difficulty in raising the money. They had an example of what could be done in the city by the manner in which the Y. M. C. A. had raised \$100,000 in the course of a fortnight. A strong committee should be got together and take the matter in hand, and he had no doubt that the project would be brought to a successful issue.

It was moved that a committee be appointed to take the matter up, and the naming of the personnel was left in the hands of Simon Leiser, presi-

dent.

On the suggestion of Mr. Plummerfelt, it was decided that this committee shall work in conjunction with Messrs. George Phillips, Stewart Williams, Luke Plither, W. H. Langley, and C. Rhodes.

WESTMINSTER FAIR

Association Provides Elaborate List of Attractions for Week of Exhibition

NEW WESTMINSTER, Oct. 8.—The list of attractions which is being arranged for the entertainment of visitors to the provincial exhibition to be held in this city next week is now completed, and the programmes are being issued.

Special events have been arranged for each day in addition to the many and varied features of the big show, which will certainly be far ahead of any previous exhibition held in western Canada.

The fair will be formally opened on Tuesday afternoon at 2 o'clock by Hon. Richard McBride, premier of British Columbia, who is a native son of this city. He will be introduced by President T. J. Trapp, of the exhibition society. The attractive attraction of the afternoon will be a lacrosse match between the New Westminster and Vancouver senior amateurs for twelve valuable gold medals offered by the society. Airship flights will also occur on Tuesday. Prof. Mars making two ascents, one in the afternoon and one in the evening. Music will be furnished by the Vernon band during the afternoon, and at a concert in the evening. This band is one of the best in the west, and is composed of over thirty members.

Wednesday will be Scottish day, and the sons of Auld Scotia will be everywhere in evidence. An elaborate programme of field events, dancing competitions, and other sports has been arranged for the afternoon by the Sons of Scotland, while a concert will be given in the opera house during the evening under their auspices. The Kitties band will be in attendance during the day, while the Vernon band will also render selections. Two airship flights will be made during the day.

Thursday will be Vancouver day, and the premier attraction, excepting the fair itself, will be the first of the series of lacrosse matches between the old rivals, New Westminster and Vancouver, for a purse of \$2,500. Archie MacKenzie, of Rossland, will act as referee. The first stock parade of the week will take place on Thursday at 1 o'clock, when a grand march of all the blue-blooded stock on the grounds will take place around in front of the grand stand and around the race course. Two airship flights will also be made on Thursday, while music will be furnished by the Armstrong military band of twenty-eight pieces, as well as the Vernon band.

Friday will be children's day, a special programme of sports having been arranged for them for the forenoon and early afternoon, while championship association football match between New Westminster and Westham Island will be played at 3 o'clock. A stock parade and airship flights will be features of the day, while a military concert will be given during the afternoon by the Armstrong band.

Saturday will be the last day of the fair, the doors being closed at 11 in the evening. The athletic attraction of the day will be the last of the series of lacrosse matches between New Westminster and Vancouver. A stock parade and airship flights will also take place during the day. Music will be furnished by two military bands, the Armstrong and Vancouver aggregations being in attendance.

Concerts will be held in the buildings during each evening of the fair.

Was In Collision

The French bark Notre Dame d'Arvor which left Cherbourg for Portland, Ore., September 8, put into Falmouth badly damaged as a result of being in collision with the British steamer Rathwaite. She was run into by the steamer 4 miles southwest of the start. The bark was cut down from the poop about the mizzen rigging to stern to the water's edge. Stores were damaged and cabins flooded with water. Between 70 and 80 tons of cement were jettisoned. She was towed to Falmouth by the French steamer Racine.

the Victoria theatre next Wednesday night. Boxes have been reserved for His Honor the Lieutenant-Governor and party, Honorable Premier McBride, and His Worship Mayor Hall.

The Business Men's luncheon at the Empress Hotel, Wednesday at noon, will be Mr. Bryan's initial appearance. The demand for seats for this occasion has been heavy. This department of the Bryan programme was only opened Thursday, and yesterday one hundred applications were made to R. B. McMicking. It is anticipated that today will close the luncheon list as the limit is two hundred. His Worship Mayor Hall will preside at the luncheon and introduce the speaker of the day, Hon. Dr. Young will move the vote of thanks and United States Consul Smith will second it.

Mrs. David Spencer is opening her home, "Lan Dderwen," Moss street, Wednesday afternoon for a private reception to Mr. and Mrs. Bryan, when Mr. Bryan will hold a brief conference with the board of directors of the Young Men's Christian Association, relative to their plans for new building extension.

The evening lecture, "The Prince of Peace," promises to be an event long to be remembered by citizens of Victoria. This is the silver-tongued orator's masterpiece. The recent publication, "Public Men of America," relative to Mr. Bryan, states: "His two favorite lectures are "The Value of an Ideal," and "The Prince of Peace," and the latter has attained world-wide celebrity."

CIVIC IMPROVEMENTS

It is impossible to take note of what has been done during the last year or two in the way of constructing permanent sidewalks and boulevards without being impressed with the thought that much is being accomplished towards removing the reproach that Victoria depends for its charm upon what nature has done, and the chief result of man's work has been to disfigure what would otherwise be a beautiful landscape. Some of the residential streets are taking on an exceedingly attractive appearance, the permanent walks, with the strip of green on either side and the rows of trees in the wider grass belts presenting an appearance that is very pleasing to the eye, and will soon lend itself to charming effects, when the trees get a little larger. We wish to compliment those who were instrumental in bringing about these improvements and those who have had the responsibility of carrying them out, upon the very good work that has been done. We hope it will be continued until every part of the city that can be thus beautified will present a similar appearance.

A part of the central area of the city seems almost hopeless from the scenic point of view. Nothing can be done with it from the residential point of view, and the most that can be hoped is that it will be kept tidy. By and by the old buildings will be removed to make room for better looking structures, but in the meantime we suppose we shall have to be content with the unsightly appearance presented by many blocks. The work of betterment is proceeding fairly well. For example the improvement noticeable on the southeast corner of Douglas and Yates, which was only a little while ago a very unsightly spot, is very marked. It will not be long, we hope, before fine buildings will be erected on the block where Humboldt joins Government street. There is a marked improvement in a part of Chinatown, but the block south of Herald on the east side calls for a change as soon as possible. From Discovery to Bay along Government, nothing much that will add to the attractiveness of the city need be looked for, unless the E. & N. builds a handsome station on its block. Douglas from Herald to Queen's Avenue is a discouraging section, and apparently must remain so for some time to come. But almost everywhere else throughout the city there has been great progress towards rendering the place attractive to the eye, and there is no valid reason apparent why the most of it might not in the course of a year or two be brought up to the standard of the best parts. Unfortunately some of the streets are too narrow for successful treatment, but something can be done everywhere, and if the present policy is continued, it will be done.

Civic improvement of the kind referred to, if properly planned, properly carried out and properly maintained are not a tax; they are an investment. They are not a burden; they are a benefit. The stranger, who comes here to make a home, will pay more for land upon a street that is properly paved and boulevarded than he will for land on one with ricketty wooden sidewalks and a dirty carriageway. He will not ask what additional taxes he may have to pay to recoup the city for the improvements; or if he asks, it will only be for information and not because he regards such a tax a burden to the property. The only persons, who object to such improvements are those who wish to hold real estate and wait for the unearned increment; but such persons ought not to be allowed to keep the city back.

TRUE HEROISM

Yesterday at the Board of Trade a resolution of sympathy with the miners who suffered at the Extension disaster was passed. In the course of the brief discussion mention was made of the heroism exhibited by the miners in going to the rescue of their fellows, and Col. Prior, who has had much experience in connection with coal mines, spoke. He said that miners look upon the acts, which had been described as heroic, as simple matters of duty, and that in the event of an accident there was never any difficulty in getting volunteers to go to the aid of those in peril, the only difficulty being to keep too many from going. If anything could soften the nature of such disasters, it is that they bring out so much that is noble among the men affected by them. It is not very difficult to be heroic when people are looking on and the band is playing in broad daylight; and to their eternal credit be it said that coal miners never find it difficult to be heroic

down in dark cavernous levels, where no eye can see what they do and where for all they know death may be lurking near. That under such circumstances men, seeking safety, go back to help their comrades, and often die rather than desert them, is a splendid thing. It may be as Col. Prior says that the men do it as a matter of course; but matter of course heroism seems to our way of thinking to be the best type of all. We are glad to be able to print that Col. Prior, who knows them well, has said that all miners are heroes in the face of disaster.

A NEW THEATRE

The promise of Sir Thomas Shaughnessy, that a new and up-to-date theatre in Victoria would receive support from him, has aroused fresh interest in the proposal to erect one. The discussion at the Board of Trade yesterday appears to bring this desirable project within measurable distance of realization.

Really all that is necessary is for the people who appreciate what is needed in this regard, to put their shoulders to the wheel. The amount of money needed is not large, and we believe it could be secured without any very great difficulty. Here is a chance for our people to show their public spirit.

A QUESTIONABLE COURSE

A sub-committee of the Cabinet has heard arguments respecting the constitutionality of an Act of the Ontario legislature. We were not aware that it was the practice of the Cabinet to appoint a judicial committee to decide constitutional questions; and if it is, we suggest that it is a usurpation of power. The Cabinet is not a court, and it ought not to exercise the functions of a court. We have before now pointed out the danger which might arise from the attempt on the part of the Cabinet to exercise judicial powers, and the Colonist has been one of the few papers in Canada that have objected to the disallowance of legislative enactments on the ground of unconstitutionality alone, for we have held that this is a question to be passed upon by the courts, and by them alone. It may be that the sub-committee referred to may advise that the Act in question is unconstitutional, and it might also be that, if an appeal could be taken from its decision to the Judicial Committee of the Privy Council, the decision might be reversed. We concede the right of the Dominion government to advise the annulment of any local Act, which seems to it hostile to the established policy of Canada, or which in the opinion of the government may be dangerous to the public welfare; but a constitutional question is quite another matter. The federal cabinet is not charged with the duty of interpreting the British North America Act, and it is not difficult to suggest a case in which it would not be a disinterested party upon a constitutional issue. It is a fundamental principle of our law that no tribunal shall have the right to decide a question on which it does not stand impartial between the contending parties.

Again, take the right of appeal. If a case arise between parties in which a constitutional question is involved, it goes through the courts and may be finally disposed of by the highest court of the realm, if the litigants so desire; but in the case of an Act of the Legislature, if the Cabinet is to pronounce judicially upon it, there is absolutely no appeal. We submit it to be desirable that there should only be one tribunal to settle constitutional questions arising in Canada, and that is the regularly constituted courts of the land; and therefore while there may be precedents for the course taken in the case referred to, they form a custom that would be more honored in the breach than in the observance.

THE SIBERIAN MARKET

There is to be great development in eastern Siberia. Prince Lvoff, who has recently been in Montreal, said to a reporter: "This section is what is known as 'Trans-Bakala.' It lies between Irkutsk and the Pacific. Fifteen hundred miles of railway are at present in course of construction along the Amur river, connecting Stretinsk, the present terminus of the Trans-Siberian railway in Russian territory, with Khabarovsk, an important town and administrative centre, situated at the juncture of the Amur and Ussuri rivers, and already connected by rail with Vladivostok, the great Pacific port. This will make, when completed, an all-Russian route across Asia."

There are three ways in which goods can be taken into this part of the Siberia. One is over the Siberian railway from Moscow, a distance of 6500 miles along a single track; the other is by way of the Suez Canal, which involves a two months' voyage; and the third is from Canada, which is much shorter than either of the other routes. The course from Canada would be by steamer to Vladivostok, which is open all the year round. The sailing route to this port is around the northern end of the largest of the Japanese Islands, and the distance from Victoria is little if any more than to Yokohama. The following are the articles for which there seems to be a demand: Agricultural implements, portable engines, boilers, pumps, light railways, wire rope, lumbering and sawmill machinery, belting and packing; canned meats, canned fruits and condensed milk. The demand for the latter is particularly strong. There is at present no direct steamship communication between Canadian and Siberian ports, and the suggestion is made that a line of steamships should be put on

from Prince Rupert with the view of developing traffic over the Grand Trunk Pacific, as soon as that road is completed. This is a very interesting and important matter, and we are quite in sympathy with the proposal that the Dominion government shall send a commissioner to investigate the trade opportunities.

ARE THEY CIVILIZED?

The Cincinnati Enquirer takes leave to doubt if the people of the United States are civilized and it asks: "What is the matter with us that trains are wrecked and held up and robbed, that banks are raided and robbed, that people are lynched, hanged and burned without trial, that men shoot each other down in the streets to settle personal differences, that men shoot women who refuse to marry them, and that girls kill lovers who desert them, that an unwritten law is sanctioned by the courts, and that such things are happening all the time here and are almost never known to happen in other countries?" If the Enquirer will take down its history and read of some of the ideas entertained by the people of the United States after the foundation of the Republic, it will see that the country is only relapsing into a former condition, which happily did not last very long. In Scribner's history of the United States it is said that many of the former colonists, who had lived in the isolation of frontier settlements, looked upon their newly acquired "liberty" as meaning that every man had a right to do absolutely as he pleased, and that legislatures had no authority to make laws and courts no right to enforce them. The cause of what the Enquirer complains of may be called a perverted conception of individual liberty.

Premier Whitney was 66 years old last Saturday. No one would think so from his appearance. May he live long and prosper.

A later despatch from Ottawa than that referred to yesterday, says that the naval expenditure to be proposed by the government may run as high as \$50,000,000. Well, the country can stand it.

An Ottawa despatch says that the successor to Lieutenant-Governor Dunsmuir may be appointed within a few days. We gather that this comes from the same source as the report that the change would not take place until next year.

Explosions, which took place in sewers, gave a part of New York a bad shaking yesterday. No great damage is reported, but the occurrence suggests that the boring of holes beneath a city may prove to be a serious source of danger, especially now that explosives are used to so great an extent for power purposes.

Admiral Seymour seems to have a happy way of putting things. His speech at the New York banquet, in which he complimented the German Admiral, who was present, in such a manner that the latter arose and grasped his hand, was altogether admirable. It was worth a dozen leaders on the German menace. The incident will be reported all over Germany, and we may hear more about it.

Mr. Will Crooks doesn't like his published portraits. Mr. Crooks is unreasonable. We may all be good, if we follow his advice; but, alas, no means has yet been discovered whereby we can all be beautiful. Anyway, a fellow who can start from the very bottom of the ladder and by the sheer strength of his intellectual force become a world-wide celebrity, need not disturb himself because he does not make a pretty picture. As some of his constituents might remark, "an some is as 'ansome does."

"Walk and keep well," says a contemporary. Now we have absolutely nothing against the tramway company; we wish every livery stable in the town well and hope the livery motors will have lots of prosperity, but at the same time we heartily commend walking as an exercise. But to our way of thinking the walking is best when done for the purposes of exercise. Rushing to business after breakfast, rushing home to luncheon and rushing back to work is not exercise, and it may be injurious.

The case of Babbage, the postoffice clerk sentenced to the penitentiary for three years for tampering with the mails, is a sad one in many ways, but not more sad than many other cases where men are led to resort to dishonest methods for their own advantage. In such cases it is not the guilty person who suffers most. He naturally has contemplated the consequences of his acts, to some extent at least, and is more or less prepared for them; but the innocent members of his family are entitled to the deepest sympathy.

The route of the Canadian Northern between Toronto and Ottawa, as shown by the plans that have been filed at Ottawa, will be parallel to Lake Ontario. It will be further inland than the route of the Grand Trunk for the greater part of the distance along the lake, but will cross that road so as to secure an entrance into Belleville. A few miles further along, it will recross the Grand Trunk and run in as direct a line as possible to Smith's Falls. Thence it will run in nearly a straight line to Ottawa. It will be the shortest line between the two cities, and very nearly, if not quite, the shortest possible.

You'll Like This Beautiful "Old Abbey" Limoges China

We Are Now Showing Some of the Daintiest China Ever Displayed In This City

TO SAY that you'll like this "Old Abbey" Limoges china is putting it mildly, we think—you'll go into raptures over its daintiness, unless you are differently constituted to those homekeepers who have seen it during the past few days. Limoges china of such quality has never before been shown in this city at these prices. The values are the best we have ever shown in this class of china and the decorations are just as dainty and as fine as you'll find on china priced much higher than these. Make an effort to visit the first floor and see these offerings.

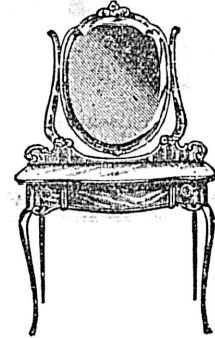

BON BONS at, each 75c to **60¢**

Stylish Dressing Tables Priced at \$16

These Useful Furniture Items Are Reasonably Priced Here

The lady folk find the dressing table a most convenient article of the bedroom's furnishings—find it almost indispensable after they have used one for a while. Convenience and comfort—two features appreciated by any woman—are personified in these.

We have dressing tables—stylish ones—priced at little prices, so reasonably priced in fact that almost any home may have this in the bedroom. Come in and let us show you an attractive dressing table in either Golden Oak or Mahogany finish, with drawer and a large, shaped bevel plate mirror of best quality, priced at **\$16.00**

Another very attractive dressing table at a popular price is this one—has one drawer and a large square-shaped, bevel plate mirror. Made of Golden Oak and finely finished. Priced at... **\$25.00**

We have this in Mahogany at **\$26.00**

GRIND YOUR OWN COFFEE WITH THESE

You'll Get Better Coffee—Know What You Drink

Grind your own coffee and know just what sort of a mixture you are drinking—know that there isn't a preponderance of "chicory." Then, too, it is better to be freshly ground—you get the best flavor from the freshly ground.

We have lately received a shipment of "Parker" coffee mills—the best make of small hand mills. We show 7 styles at 6 prices, and little prices too. Come in and let us show you these. They are priced at—

50¢, 60¢, 90¢, \$1.20, \$1.25, \$1.50

The World's Leading Cutlery Makers

Are Represented In This Store's Offerings

The world's best cutlery makers are represented in this cutlery department of ours—those whose products are backed with a guarantee of satisfaction, those makers who have a world-wide reputation for quality.

Every necessary home need in cutlery is offered, and in big assortments. Our offerings in table cutlery are worthy of inspection. The choice offered is broad indeed and not equalled elsewhere in the city, all sizes and styles being kept. Then in butcher knives, cooks' knives, bread knives, etc., you'll find great choice. Such renowned makers as the following have contributed to the showing—all have national reputations for good quality:

JOSEPH RODGERS & SONS, SOUTHERN & RICHARDSON,
"BUTLER'S", JOHN DERBY.

Don't Miss These Interesting Furniture Pieces

These Early English finished bedroom furniture pieces, in the Mission design, offer an easy solution of the question "How can I have a bedroom that's different?" The Early English finish is a pleasing medium between golden oak and Mission and has become quite popular. There's an absence of "Deadness" so displeasing in the former finish given Mission furniture. These pieces would do much to make an attractive bedroom. See them on the third floor.

News of the World in Brief

PROVINCIAL

Cariboo Conservatives

QUESNEL, Oct. 8.—The Central Cariboo Conservative association at its meeting at Quesnel last week elected the following officers: Hon. president, Hon. Richard McBride; president, J. A. Fraser; Quesnel, vice-president, S. A. Rogers; Barkerville, treasurer, W. J. Andrews, 150-Mile House; secretary, J. B. Daniell.

Memorial to Oppenheimer

VANCOUVER, B.C., Oct. 8.—At a meeting of the contemporaries of David Oppenheimer, for four years mayor of Vancouver, it was decided to take immediate action to erect a memorial in honor of his work for the city and a committee was appointed. The memorial will probably take the shape of a handsome gate at the entrance to Stanley Park and the money will be raised by subscriptions as it is desired to make the movement one that the citizens as opposed to a civic movement.

Robbing a Church

VANCOUVER, Oct. 8.—In the arrest of John Short, the police believe believe that they have a criminal of unique record, for he systematically robbed Christ church, one of the largest edifices in this city, during the past ten months. Short was befriended by Rector C. C. Owen, who gave the young man work at electrical repairing in the church. Short stole valuable lamps and other small pieces of furniture, and today search of his room disclosed the electric motor which used to operate the church pipe organ. Slowly but surely Short was dismantling the church.

Boy Gets Damaged From Company

VANCOUVER, Oct. 8.—Suit was brought in the supreme court before Mr. Justice Clement this morning by the parents of Adam Haggarty, a boy of six, against the British Columbia Electric Railway Company. The boy attempted to steal a ride on the front steps of a Harris street car and fell under the wheels, which severed his arm above the elbow. Mr. C. W. Craig appearing for the plaintiff claimed that care should have been taken to have the front steps of the car fastened back so that no child could stand a ride. The boy was notified by the motorman or conductor. Mr. L. G. McPhillips, K.C., appeared for the company. Damages of \$1500 were awarded.

Wild Man With Gun

VANCOUVER, Oct. 8.—A story reminding one of the days when the west was wild and woolly was heard in police court this morning, where Thomas Jackson, a colored man from the Yukon, was sentenced to serve thirty days at hard labor for carrying a gun. Yesterday morning a crowd of famished people eating breakfast in the Wonder Coffee House were scared out of a year's growth by the appearance among them of Jackson armed with a gun and a foot long. For the space of a few moments, till the police arrived, the police arrived.

Jackson in great glee had the guests performing gastronomical feats they never dreamed themselves capable of. Jackson told the court that the night before he lost his dog in the restaurant and he went there to try and find it. He denied that he was blood-thirsty. It happened that the gun he brandished was unloaded.

CANADIAN

Duck Hunter Drowned

NORTH HATLEY, Que., Oct. 8.—Louis Seguin, 30 years old, married, was drowned here today by the upsetting of his canoe while duck shooting.

Neck Broken

THAMESFORD, Ont., Oct. 8.—Bartholomew Prestley, aged 74, was pulled over the plough handles while ploughing and alighting on his head, his neck was broken.

Tailors Declare Strike

OTTAWA, Oct. 8.—A strike has been declared by the International Tailors' union here against the firm of Rooney & Cooper, on the ground that they imported non-union labor from Montreal and cut down the price of coat-making. The firm will fight the union.

To Help Foreigners

OTTAWA, Oct. 8.—The Canadian Methodist mission board yesterday afternoon adopted a recommendation to co-operate with other denominations to secure better living conditions for foreigners in Canada. A resolution to prevent overlapping by a co-operating in missionary work was also adopted.

In Agricultural College

KINGSTON, Ont., Oct. 8.—James Hooper, of Picton, has been appointed to the staff of the Manitoba agricultural college at Winnipeg. Mr. Hooper is a 1909 graduate of Queen's university in science and a gold medalist in botany. His new duties will be the teaching of biology and botany.

Queen's Appointments

KINGSTON, Ont., Oct. 8.—At Queen's university the following assistant professors have been appointed by the trustee board: L. P. Macdonald in English, Dr. H. F. Wallace in Hebrew, A. G. Ferguson in Philosophy, W. A. Bain in Classics and W. A. Houser in Mathematics.

West India Commission

MONTREAL, Oct. 8.—Lord Balfour, of Burleigh, chairman of the West India trade commission, leaves for England next week, having completed the taking of evidence in Canada respecting trade conditions between Canada and the West Indies. The commissioners will not hold further inquiries until Nov. Messrs. Fielding and Paterson, the two Canadian commissioners, are relieved of parliamentary duties. The date of inquiry will be held in the West Indies.

Insurance Men Confer

HALIFAX, Oct. 8.—Representatives of all the fire insurance companies in Halifax at a meeting today approved of the proposed Canadian federation to fight obnoxious insurance legislation, and appointed committees as local executives. Another meeting will be held to which local senators and members of parliament are to be invited. Meetings are to be held in other cities of the province.

Cobalt Mining Stocks Slump

MONTREAL, Oct. 8.—To the amazement of everybody in general, and the "street" in particular, La Rose and Nipissing mining stocks hit the chutes today, and the prices for the two melted so fast that shareholders were fairly staggered. Recently La Rose has been selling around 7 1/2 and 8, while "Nip" has been strong around 11 1/2 to 12. Without warning, La Rose opened and dropped to 5 1/2, while Nipissing touched 10. Rumors of a faction fight between the two companies are said to be responsible.

U. S. Monetary Commission

MONTREAL, Oct. 8.—The United States monetary commission, which is visiting Canada for the purpose of making an inquiry into the Canadian banking system and other matters met in the board room of the Bank of Montreal. The commission was represented by Messrs. Vreeland, Weeks, Hubbell and Bonyne. They had a conference with Sir Edward Clouston, who explained the workings of the Canadian banking system. Afterwards the United States representatives were the guests of Sir Edward Clouston at luncheon at the Mount Royal Club, where they met Sir Thomas Shaughnessy, C. R. Hosmer, H. V. Meredith, H. S. Holt, and E. L. Pease, and also John Knight, who had accompanied the members from Toronto.

BRITISH

Grand Trunk Rumors

LONDON, Oct. 8.—It is stated in financial circles here that Sir Rivers Wilson is likely to retire from the presidency of the Grand Trunk and from the directorate, and it is thought that the Canadian government, even if it does not make a choice of successor, may intimate in what direction it would be desirable for the choice of the board to fall.

FOREIGN

Gold Goes to Japan

NEW YORK, Oct. 8.—Two million dollars in gold was engaged today by the Yokohama Specie bank for shipment from the sub-treasury to Japan via San Francisco. This brings the total gold shipments from the United States to Japan since the first of the year to \$20,000,000.

Negro Lynched

GREENSBURG, La., Oct. 8.—That Aps Gard, a negro, was lynched several miles from here Tuesday night became known today. Young Gard killed a planter several months ago, was arrested early this week and was on his way here with a constable when a posse overtook him. He was hanged and shot.

Five Years for Graftor

SAN FRANCISCO, Oct. 8.—James C. Tomalty, former chief bookkeeper in the office of the city treasurer, who was convicted recently on a charge of altering the public records, was sentenced today by Judge Cahill to serve five years in the penitentiary.

Death Steps In

CHICAGO, Oct. 8.—On the eve of his intended departure with his family for a trip around the world, Gustaf C. Broberg, widely known as the publisher of the Swedish newspaper Svenska Nybeler, and as a steamship agent, dropped dead here today of heart disease. Deceased was 51 years of age, and had lived in Chicago since 1880.

Colombia's Hopeless Army

BOGOTA, Oct. 8.—The Chilian officers who were brought to Bogota early this year to reorganize the Colombian army have given up their task and will hurry home. The government has refused to inaugurate a modern system of supply and control, and without this the Chilians argue nothing can be accomplished.

Embezzler Breaks Jail

DENVER, Colo., Oct. 8.—Oscar E. Dreyer, otherwise known as Oscar Dreyer, wanted for alleged embezzlement of hospital funds at Raybrook, N. Y., broke jail early today, and his whereabouts are unknown. Information received today has led Chief of Police Armstrong to the belief that Dreyer escaped with the aid of an outside accomplice.

Starting Explosions

NEW YORK, Oct. 8.—Nearly a square mile of the Middle West Side was shaken late this afternoon by a series of sewer explosions, which blew manhole covers high in the air, injuring several persons and doing considerable damage to property and caused a moment of sharp panic. Large windows of many stores were shattered and half a dozen persons were seriously hurt by flying glass.

Business Man in the Toils

SPOKANE, Oct. 8.—J. M. Bennington, a prominent business man of Ritzville, chairman of the Republican central committee of Adams county, was jailed yesterday on a charge of forgery. His bond was fixed at \$20,000. Bennington is accused of tendering bogus warehouse receipts and forged notes of Adams county farmers to the Exchange National Bank here as collateral for a loan of \$10,000, which he was trying to secure.

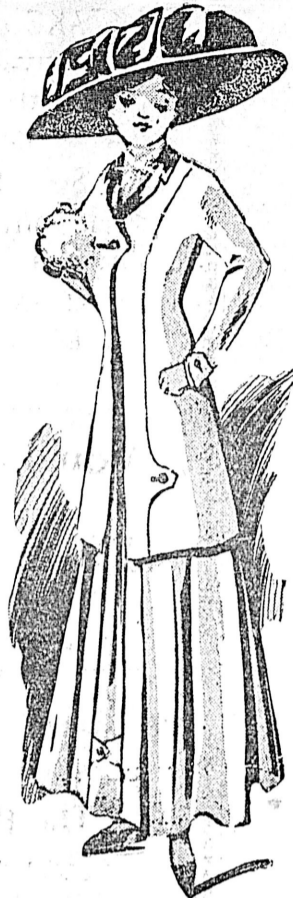

Novel Method Used by Police

BELLINGHAM, Oct. 8.—A new and in this case very effective punishment was meted out in police circles here yesterday, when O. M. Beeler, who had been drinking, was sent home to apologize to his wife for his actions instead of being taken before the police magistrate. At first it was intended to give Beeler his choice, but when he showed symptoms of favoring the court visit he was instructed to go home. He went, but not willingly.

Efforts to Trace Murderer

DETROIT, Mich., Oct. 8.—The inquiry into the murder of Miss Mary Belle Gillman, whose dismembered body was found in several cement sacks early in September, was ad-

OUR STANDARD OF VALUE

These are the days of keen, strenuous competition when tried and proven merit alone can win permanent success.

It is astonishing how many men are wearing Fit-Reform garments in preference to any that the merchant tailor can make.

The demand for Fit-Reform Suits and Overcoats has never been so active and so widespread before.

The Fit-Reform reputation has been built on value. Fit-Reform garments have proved their quality and today

enjoy the esteem of gentlemen from the Atlantic to the Pacific. Raincoats and Fall Overcoats, made up in a variety of elegant Tweed effects—

PURITY FLOUR

PURITY FLOUR knows no class-distinctions. It is the best flour for all classes. From the humblest to the highest all use it and find it the best.

PURITY FLOUR is not a one-purpose flour. It makes the best bread, the best biscuits, the best cake.

PURITY FLOUR is not popular in one section only. It is the national flour. From coast to coast it proves its worth. It proves it gives "more bread and better bread." It proves it is in every way the all-round satisfactory flour.

That is what you will find if you ask for PURITY the next time you buy flour.

NEWS OF THE CITY

County Court Case

Today the case of Sherk vs. The Canadian Taylor Automatic Fire Alarm and Call Bell company will be heard before Judge Lammman and a county court jury.

Will Bring Back Birds.

D. D. England, superintendent of parks, left yesterday afternoon for Vancouver for the purpose of bringing to Victoria a number of birds donated to the local parks board.

Company Meeting.

No. 2 Company of the Fifth regiment C. G. A., will hold a special business meeting at the Drill hall on Monday evening at eight o'clock. Important business will be brought up. A full attendance is requested.

Wills Probated

Yesterday morning in chambers probate of the will of the late Susan Spring was granted on application of J. H. Lawson, Jr. Probate was also granted of the will of the late Mary A. Gillespie on application of D. S. Tait.

Ladies' Musical Club

This afternoon there will be an important meeting of the Ladies' Musical Club. The work of the coming winter will be discussed and arrangements made for the successful carrying on of the contemplated programme. The meeting will be held in Waitt's hall.

Woman Sentenced

Two months in jail was the sentence imposed by Magistrate Jay yesterday morning at the police court on Mrs. Kay, convicted of stealing a quantity of goods from the home of A. J. Kerr. The prisoner had been employed as a domestic and had pilfered a considerable quantity of linen, wearing apparel, etc.

Many Objections.

Over 1,000 applications for registration in the city and \$5 in the constituency of Esquimalt, have been received by Harvey Combe, registrar of voters. The time for the reception of applications has expired. About \$50 objections have been made against names now on the city list. The next sitting of the court of revision will take place on November 1.

Inquest This Morning

This morning at 11 o'clock at the provincial police office the inquest on the body of J. Macfarlane, one of the crew of the Vado, who was killed two weeks ago by falling into the hold of the vessel, will be held. The jury was empanelled as soon as the body was brought to the city, but the proceedings had to be postponed until the arrival here of the Vado with the necessary witnesses.

After Jailbreakers.

The provincial police department is looking for Frank Belmont, charged with arson; Harry Jazard and Mary Smith, committed for trial on theft, who succeeded in escaping from the Kamloops jail while held for trial. Superintendent of Provincial Police Hussey has offered a reward of \$100 for information that will lead to the apprehension of each of the prisoners. The trio escaped through the use of a key which in some manner they succeeded in securing.

For Clean Streets

At last night's meeting of the committee on streets, bridges and sewers it was decided that the chief of police should be notified to enforce the by-law dealing with the cleaning of sidewalks, etc. The committee was unanimous in deciding that the city sidewalks would have to be kept in better condition. The committee also decided that D. D. England, superintendent of the parks board, should be required to keep the sidewalks clean, where trees, the property of the city, shed leaves on the walks.

Harbor Regulations Violated

D. C. Cameron, managing director of the Cameron Lumber company, was yesterday fined by Magistrate Jay in the police court the sum of \$10 for allowing refuse from the mill to be deposited in the harbor. The information was sworn out by Capt. Clarke, harbor master. Mr. Cameron stated that personally he was not guilty of the charge laid, but evidently some one of the mill employees had technically violated the harbor regulations and as managing director of the company he would have to plead guilty.

Resolution of Sympathy.

The following resolution, proposed by A. C. Chummett and seconded by L. A. Genge, was passed at the quarterly meeting of the board of trade, held yesterday: "That the heartfelt sympathy of this board be extended to those who are bereaved by reason of the recent deplorable explosion at Extension. This board also desires to express the feeling that the thanks of the community are due to those who so generously put forth such heroic efforts to save life. That a copy of this resolution be forwarded to the mayor of Ladysmith and to the president of the board of trade in that city."

OBITUARY NOTICES

Borstein

Four score and six years old, the last 32 years of which had been spent in Victoria, there passed away yesterday morning at his residence, 1144 Yates street, Hermann Borstein, a victim of heart disease. Deceased had been ailing for the past year, but death came suddenly in the end. Born in Deutch Crone, Germany, the late Mr. Borstein came to this city in 1877 as the representative of the Lewis Lawson Co., of San Francisco. Later during his career in this city he was employed by the Bissinger company. A valued member of the I. O. O. F. he was a highly respected resident of the city. He leaves a widow and four daughters, Mrs. Sterling and Mrs. Anthony, of San Francisco, Miss F. Bornstein, of Berlin, Germany, and Mrs. M. Moss, widow of the late Maurice Moss, Victoria. The funeral will take place tomorrow afternoon from 1144 Yates street, Dr. Hartmann officiating. The I. O. O. F. will attend in a body, interment taking place in the Jewish cemetery on Cedar Hill road.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy.

THE WEATHER

Metecological office, Victoria, B. C., at 8 p. m., October 8, 1919:

SYNOPSIS.
Weather conditions are assuming the normal winter type on this coast; low pressure areas from the ocean are traversing the western Canadian provinces and high pressure areas cover the Pacific and the middle west states. These movements have caused rainfall on the coast and snow in Caribou, three inches having fallen at Barkerville. East of the Rockies the weather is mostly fair and colder.

PROGRESSIVE LEAGUE

New Organization Formed in City and Officers Elected Last Evening

A meeting of friends and sympathizers with the new Progressive Movement was held last evening at the A. O. U. W. hall, when an interesting discussion took place on the whole question and Mr. West gave a general exposition of the objects of the league. As a result it was decided to form a league in Victoria, to which eighteen of those present subscribed. The following officers were elected: President, Dr. Ernest Hall; vice-president, Thos. West; treasurer, J. H. Baker; secretary, Welsh Lee; Imperial Bank Chambers (P. O. box 374), to whom all communications should be addressed.

The next meeting is fixed for Wednesday, the 23rd inst., when the constitution will be submitted and an interesting topic introduced for consideration. All persons interested are invited to the next meeting, of which due notice as to time and place will be given.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists 75c.
Take Hall's Family Pills for constipation.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia.

WORK DONE BY BOARD OF TRADE

President Leiser Gives Interesting Resume at Quarterly General Meeting

At the quarterly meeting of the board of trade held yesterday afternoon Simon Leiser, president, gave an interesting resume of the work accomplished by the board during the past three months. It was evident from this resume that the board is considerably enlarging its scope of usefulness, and this fact is largely due to the indefatigable energy of Mr. Leiser.

The president told of the organization of a citizens' committee to carry on a campaign in favor of the tramway bylaw. The bylaw had been carried, largely through the efforts of the board. The experimental farm committee had done splendid work. The members had taken Mr. Anderson, the Ottawa inspector to visit several sites in the vicinity of the city. They had waited on the Hon. Sydney Fisher, minister of agriculture, during his visit here, and he had told them that the farm would be situated close in to Victoria. The board had since learned that the site would be at Skinner's Bottom, on land at present owned by the Hudson's Bay company. When Lord Strathcona was here members of the board had interviewed him, in his capacity as chairman of the Hudson's Bay Company with reference to sites for the experimental farm, and also for the provincial university which is to be established in British Columbia. Lord Strathcona had stated that the site of the latter was not yet selected, but that should it be in the vicinity of Victoria, they would find the Hudson's Bay company ready to meet them fairly in the matter. It was for the citizens to be able to show the selection committee that Victoria, or vicinity, possessed an ideal site and surroundings. His lordship had also been asked about the unimproved property owned by the company on Government street, and had been informed that this matter would receive attention.

Continuing his resume President Leiser referred to the water committee which the board had appointed to collect all available data on the water question. The committee had submitted no less than forty-five questions to the city council. The answers would be forthcoming within a very short time.

C. P. R. Promises

On the occasion of the recent visit of Sir Thomas Shaughnessy to the city he had been interviewed by members of the board on matters vitally affecting Victoria and Vancouver Island. He had been approached on the question of the continuance of the double daily service on the E. & N. railroad and had referred the delegation to Mr. Marpole, president of the road. Both Mr. Marpole and Sir Thomas said that their decision to revert to the daily service was purely a matter of dollars and cents. But the delegation pointed out that when the C. P. R. first engaged in the Seattle trade, it had not proved a paying business but now thousands were traveling by that route. No definite answer had been received from Mr. Marpole in connection with this matter. In the course of the interview Sir Thomas had promised to provide a steamer for the Comox route. He could not go so far in the matter of a vessel for the new Westminster route, but advised them to get the views of Captain J. W. Troup in this matter. The members had seen Captain Troup and he was very favorable to a new steamer being provided for this route. The delegation had urged that the new steamer, or steamers, should be built in British Columbia yards, when Sir Thomas pointed out the difference in the cost of construction here and in the Old Country. He had stated, however, that the C. P. R. were willing to build the vessels here if the tenders were from local yards were sufficiently reasonable, even although they might be dearer than those submitted by English shipyards.

It developed during the interview that the Alberni branch of the E. & N. was to be constructed at once, while the same applied to the Cowichan branch, following on the sale of timber land in that district. The delegation was disappointed to learn that there would be no construction work towards the north end of the island for some time to come. Sir Thomas also had stated that the new freight sheds and railway station for Victoria were in abeyance until the question of expropriation on the Songhees Indian Reserve was decided.

Empress Extension

The question of an extension to the Empress hotel was also brought up by the delegation. It being pointed out that during the past summer people had to be turned away because there was not sufficient accommodation. Sir Thomas in answer said that next year the travel to Victoria would not be so heavy, as a large portion of this year's influx had been attracted west by the A. V. P. exposition. The addition would be made in the future, and possibly commenced next Spring. The delegation considered that some 100 additional rooms should be added and this view of the situation met with the C.P.R. president's approval.

The last question which the delegation had brought up was the matter of a new opera house for the city, and Sir Thomas was asked if the C. P. R. would consider the advisability of building the same. The reply was that the C.P.R. was not in this business. After some pressing Sir Thomas promised that his company would subscribe liberally towards the stock of any bona fide venture in this direction. What this subscription would be Sir Thomas did not state, but President Leiser opined that it would be considerable.

C. H. Lugin, chairman of the naval defence committee, asked that the committee might be relieved of dealing with J. K. Rebbeck's report on Esquimalt as a site for the establishment of a naval base in view of the fact that this report had already been forwarded to Ottawa by a cross pal navy league. J. J. Shalloo, president of the Captain Clive Phillipps club, had written to the board asking the report unreservedly that service. If Mr. Lugin felt the strengthening of the report, a committee it should hands of the naval defence committee, and the power to act.

Everybody Smokes Old Chum.

Trunk Road in B. C.

A letter from A. E. Todd was read drawing the attention of the board to the reports appearing in the local press that the government proposed joining up the trails and wagon roads in British Columbia so as to form an uninterrupted line of communication between the coast and the borders of Alberta. The board was asked to endorse the proposed policy of the government. Clippings from the local papers were enclosed in Mr. Todd's letter.

Mr. Lugin pointed out that the proposed policy would mean the construction of over 300 miles of new highway. The suggestion was due to the Hon. Thomas Taylor, minister of public works, in the local government. At present there was a road from the south bank of the Fraser to Chilliwack and hence on to the Hope Mountains. From there 50 miles of trail would be necessary as far as Princeton and the road would then run from that point to Grand Forks and thence to Christine Lake. This proposal was as yet only a proposal and not a policy.

J. J. Shalloo pointed out that this policy of trunk roads was being adopted in different lands, and he alluded to the motor roads provided for in England in a recent Imperial budget. He thought the idea an excellent one. In this matter the island should not be laggard in its feelings, and the board could well afford to endorse the proposal.

J. A. Mara said that he did not think that the board should give support to a scheme which up to the present seemed to be based on mere newspaper hearsay. He was of opinion that a minister of the crown never gave such interviews appeared in the local press. Incidentally he paid a tribute to what he termed the wealth of imagination and wonderful optimism of a reporter in bridging rivers and chasms, as would have to be done in carrying out such a proposal. He said the expense would be enormous, that it would be a mistake to endorse a purpose and interview, and in fact characterized the whole proposal as a reporter's dream.

Mr. Todd's letter was laid on the table.

A Pessimistic View

Before the business of the meeting came to a conclusion Mr. Leiser, on behalf of the board, extended a welcome to Charles Hayward who had just returned from a trip to the Old Land. In replying, Mr. Hayward said that in England he had found a lamentable ignorance of matters in British Columbia. He was unable to say what was the cause. He found labor conditions in the Old Country in a deplorable condition. The working of the Feeding of the Children's Act he characterized as pampering. He found everyone on "the beg." The Old Age Pensions act was having the effect of deteriorating the race. He alluded to the rate of wages for navvies in a Kentish district, saying that the best paid men got only three shillings (75 cents) a day.

The following new members were elected: E. B. Kurtz, H. P. Howell, J. Stephens, A. T. Frampton, M. B. Jackson, F. L. Crawford, F. A. Fletcher, and C. E. Thomas.

The meeting adjourned shortly before 5 p.m.

THREE YEARS IN PENITENTIARY

Frederick Babbage Is Given the Minimum Term for Theft of Mail

Frederick Babbage, convicted at the assizes of stealing letters from His Majesty's mails, was yesterday sentenced by Mr. Justice Irving to three years in the penitentiary, the minimum punishment under the law. On the charge of stealing eight letters and a parcel from the mails on July 31, the prisoner was convicted, and on a second charge of stealing 125 letters from the post-office, Babbage pleaded guilty and was sentenced to another three years, both sentences, however, to run concurrently.

The sentence was passed, J. A. Alkman, counsel for the prisoner, made a plea for clemency. He pointed out that the prisoner is a married man, with a family of three small children, and being in poor circumstances, the wife and children would be in a precarious plight. The prisoner had always borne a good character here, and his discharge papers showed that while in the navy he was a man of good character. To substantiate his assertion of his client's good character Mr. Alkman called John T. Deaville and J. J. Braid, both of whom have known the prisoner for several years. They stated that they had always found the prisoner trustworthy.

Mr. Justice Irving, in passing sentence, pointed out that the statute limited him to a sentence of not less than three years, while a maximum penalty of life imprisonment could be passed. He believed that the ends of justice would be met by the infliction of the minimum term. His lordship expressed his sorrow for the prisoner's wife and children, but pointed out that he had no option but to send Babbage to the penitentiary.

STEEL PLANT FOR THE ISLAND

Big Yorkshire Company Has Representative Looking Over the Ground

A steel plant is to be established on the west coast of Vancouver Island, not a great distance from Victoria, by the Middlesbrough Steel & Strip company, a prominent steel firm of the Yorkshire steel centre.

Donald M. MacGregor, representative of the Middlesbrough Steel and Strip company, has been at the Empress hotel for the past three or four weeks, and has been engaged in making investigations of the iron and coal properties of the island. He recently returned from a visit of inspection to the Bugaboo iron mines, an extensive deposit of iron on the Jordan river about five miles from the coast, and leaves on the next trip of the steamer Tees on a visit to many island properties, making a complete tour of the island.

Seen by a Colonist reporter yesterday at the Empress hotel, Mr. MacGregor said:

"Yes, I am here as the representative of the Middlesbrough Steel and Strip company, of Middlesbrough, Yorkshire, for the purpose of making a study of the situation with regard to the establishment of a steel industry on the Vancouver Island coast. In this enterprise we are being backed by prominent London capitalists."

"We have not yet decided upon the location of the plant, where we propose to make steel by the open hearth process, but expect to do so before long, and will then begin the work of making our harbor, building factory, shops, etc., breakwater, and securing steamers for carrying ore and coal. We have been considering the establishment of this plant for the past three years, and have already secured some properties."

While Mr. MacGregor, as the representative of the big Yorkshire steel firm, is engaged in completing investigations for the establishment of a steel plant, a proposition has been made to Victoria by the Irondale Steel company, headed by James A. Moore, of Seattle, for the establishment of a steel plant here.

With the establishment of a plant, such as is intended by the Yorkshire firm, on Vancouver Island, a big impetus would be given to the industries of the island coast. The intention is to build a breakwater for the purpose of making a safe harbor where the company's freighters could lie secure from the southwesterly gales, this being regarded necessary with the location of the plant on the coast where harbors which have such advantages as has Victoria are not plentiful. A fleet of four or five steam freighters would also be required for the purpose of carrying coal and ore for the plant.

TEACHERS IN SESSION

Local Teachers' Institute Holds Interesting Discussion at Quarterly Meeting

The regular quarterly meeting of the Victoria Teachers' Institute was held yesterday afternoon in the Y. M. C. A. hall, the president, S. J. Willis, principal of Victoria College, presiding. There was a good attendance of teachers and a few visitors. Miss Jessie McKilligan delighted the audience by singing "O, Jesu Saviour." In response to a very hearty encore Miss McKilligan sang "When All Was Young," from Gounod's Faust. Mr. Howard Russell was the accompanist.

Mr. McLean, of South Park school, gave a short and pleasing address on "Rural Education" as conducted in the Macdonald Consolidated schools. Mr. McLean has only been a few weeks in Victoria and alluded, in passing, to what he had learned of the excellence of the British Columbia system of education. A short sketch of Sir William Macdonald's part in the improvement of education in Canada was given and the speaker described the Hillsborough Consolidated school, of which for some years he had been principal.

Sir William Macdonald, unlike the philanthropists who had spent their money in founding libraries and colleges, believed that the future of the country depended on the wise education of the children of the rural schools. His idea was that by bringing the children of rural schools together to procure better teachers with more perfect appliances than was possible in a number of small schools. The subjects in addition to the ordinary country school were domestic science, nature study, manual training and music. The nature study was taught by means of school gardens, and the speaker was enthusiastic in his estimate of the value of this means of education. He showed that many subjects could be more efficiently and more pleasantly taught by the help of the outdoor lessons than in any other way. The children enjoyed the work and not only they but their parents were benefited by it.

Mr. McLean believed that there should be rural school gardens in this province and that the city schools would be benefited by their introduction. All that was needed for success was a plot of ground and an enthusiastic teacher.

At the close of the address Miss McKilligan sang to the great delight of the teachers, Clarke's "A Bowl of Roses."

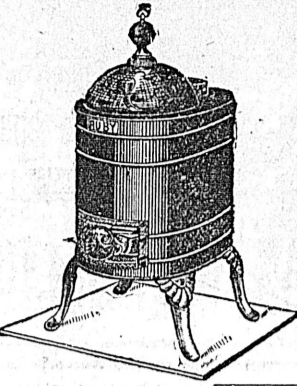

The president asking for discussion, Mr. Y. Munster wanted to know how it would be possible to maintain discipline with a large class in a school garden and intimated that the work would take too much time from other studies. J. M. Campbell feared that the gardens would be destroyed unless someone was put in charge of them and Miss E. G. Lawson asked how the gardens were cared for in the holidays.

In answer Mr. McLean said that there was no difficulty in discipline. He had seen a hundred children at work in the garden without a teacher and there was no trouble. If a subject was important there was always time for it. The pupils of the Consolidated school, Mr. Willis stated, had beaten all competitors at the entrance to college and the children had taken care of their own gardens in the holidays. There might be danger of vandalism in the city but in the Consolidated school the children took care that no one touched their work though the gardens were unprotected.

The new Shipping Forms to be used on Railroads after October 1st, by order of the Railway Commissioners, are on sale at the Victoria Book and Stationery Co.

Ladies' Flannellette Waists, in good designs and colors, 75c, each, at Robinson's Cash Store, 642 Yates Street.

A Good Stove Is a Good Friend

Our new winter goods are to hand,—an exceptionally fine stock of the best and most reliable stoves and heaters. These are grand values:—

AIRTIGHT HEATERS FROM \$2.25

Here and There

The boy scouts in England, of whom nothing has been heard by the outside world till recently, seem to have undergone a thorough course of training. One of their number, a lad named Fairfax Franklin, has obtained orders which show that he excels as a fireman, cyclist, signaller, pioneer, seaman, marksman, cook, master-at-arms, stalker, gardener, horseman, electrician, musician, and strategist. The amount of work and out of door exercise that must be done and taken by boy scouts can be judged by this list. Of course, it is only the very exceptional lad that will ever be proficient in all the branches of this service. But the training is the same for all.

There are many people who think that it is a mistake to train boys to be soldiers. Mr. Haldane is not of this number. A few days ago he said: "There is a great deal of nonsense talked about military training in connection with the boy scouts. It is one of the most valuable movements which we have going for the general physical development and training of boys."

Rudyard Kipling's verses, which will, no doubt give the boys a rallying cry point to the ethical side of this training in words which any lad can understand. These are the first and last verses:

There's just one law for the Scout,
And the first and the last, and the present and the past,
And the future and the perfect is
"Look out!"

Look out when your temper goes
At the end of a losing game;
And your boots are too tight for your toes,
And you answer and argue and blame.

It's the hardest part of the law
But it has to be learned by the Scout—
For whining and shirking and "Jaw"
(Chorus) All patrols look out!

This is good advice for any boy who is to become a strong, good man. But it is also good advice for the people of the Empire that either the discipline of the scouts or military training in the schools is meant, first of all, to prepare men for the duties of peaceful citizenship. It will do that. The boy who makes the most of his body, who knows how to work with others for a common end, and who has learned obedience, respect for his superiors, and self-control, will be likely to make an excellent citizen. In the case of the scouts there is added to all this the self-reliance and a power of initiative that is likely to render a man successful in any calling.

But there are other ways of developing all these qualities than are found on the scouting field or the drill ground. Those who advocate military training for the boys of the Empire do so because they believe this is the most effective way of preparing an army of defence both in the Mother Land and in the Overseas Dominions. It may be that in our time this army will not be needed, but it is idle to shut our eyes to the possibility that the British nation may again be called upon to defend itself against its enemies and that all parts of the empire must be ready to meet a common danger.

Which of us would not wish that the men we love were prepared to defend their country and their homes, if need be, from danger. We saw but yesterday that the miners in a neighboring city did not count their own lives dear in order that they might rescue their comrades. Which of the tenderest and the most loving of wives and mothers of these brave fellows would have stretched out a hand to hold them back from the path of duty, even though it ended in death?

And so far as we can see, it may any day be the duty of the men of the country to face death in order to save their land from a foreign enemy. To prepare their sons for this, to teach them to look upon war, not as some thing to be lightly undertaken, but as a duty that may be forced upon them, and that the defence of home and country is not to be left to others, seems to be the duty of British mothers in whatever part of the Empire they may live.

There are in Canada already people of many different races, speaking many tongues. There is a disposition among some of these to preserve their native language. This is very natural for the love of the Mother tongue is strong in the human heart. Yet those people are most progressive who soon learn to speak the language of the country to which they emigrate. This was, in a former generation, true among the settlements of the Highland Scotch. As long as the people spoke only Gaelic, they made comparatively little progress, and the settlement was backward. But as soon as the younger people learned English, which they did with wonderful facility, they became more prosperous.

Even among the French of Quebec, who do not form isolated communities, the ability to converse easily with their fellow Canadians of English birth tends to progress. The readiness with which the Scandinavians learn to speak the English language has made them both in Canada and in the United States the most successful of colonists; or, perhaps, they would be nearer the truth to say that the same adaptability which enables them to acquire a foreign tongue, rapidly makes them quick to seize opportunities and to find a way out of difficulties. The first step towards making good Canadians of the foreigners who settle in any part of the country is to teach them English, and this should be done with all the skill and tact and kindness which the teachers of the public schools possess. Even in our own province there are settlements of foreigners. The older people cannot be expected to use our language readily, but the next generation will, unless their national pride is aroused, and their shyness fostered by unkindness and prejudice on the part of their neighbors of English birth, learned to look upon English as their native language. This will be a long step towards making them good Canadians.

In her talk on Thursday morning, Mrs. Will Crooks described the condition of girls who worked in London for only five shillings, or less than a dollar and a quarter a week. She showed that these girls, if properly treated, were ready and willing to learn. There are thousands of women in this country who need just such help as these girls could, if properly trained, give. For there is no use in shutting our eyes to the fact that many others in this city and province work as hard. It is only people in exceptionally good circumstances

who can afford to pay the current rate of wages for household service. Mothers who send their children to school, and who do all their own work often have to work so hard that they have no time for anything but an unceasing round of drudgery. For love our work as we may, it becomes drudgery when there is no time for other interests besides constant toil. Yet it is to be doubted whether, under existing conditions, these girls, hard as they may be, are getting the best of their lot in the training they receive as a preparation of the duties of home life, would be willing to engage as servants. In England, as in America, girls, as a rule, dislike domestic service. They prefer even poor pay and harder work, where they have time to themselves, than what they look upon as an employment which deprives them of independence.

But a reform in the conditions of the general servant is bound to come. There is no reason why the girl who works in a house should not receive at least as much courtesy and consideration from her employer as a girl who works in a store, and should not have at least as much time which she can call her own.

But it may be said, these girls, even if they were brought here, would be so unfamiliar with conditions that they would be of very little use in the homes of the citizens, and still less in the army.

Would it not be possible to establish here a home where such girls could be taught how to work, and where they could be cared for until they were familiar with life in this province? Such a plan would, of course, require the co-operation of philanthropists both in the Old Land and in Canada. It would not be an easy task to bring the girls from England to the work that waits their hands here. But the need for such labor exists. Life here, where there is an abundance of fresh air and space should be happier than in the crowded tenements of East London. Cannot something be done to supply a much-felt want, while at the same time young girls who are of our own kin are benefited?

With the opening of the schools, there appear in many of the newspapers criticisms of the amount of work which school children are required to do at home. It is alleged that many of the pupils are overworked, and that they do not get time for needed recreation. While there is some complaint, and while teachers should take care, especially in the case of young children, but a very moderate amount of work should be required out of school hours, it is doubtful if many children hurt themselves by study. When children are pale and languid, it is often more conditions than the part in exciting amusements. Their time for study is not regular, and no one sees that during the period spent over their books the pupils are really working. A half hour's real study, where the mind is concentrated on the subject in hand, is far more profitable than two hours spent in such a complaint, and while teachers should take care, especially in the case of young children, but a very moderate amount of work should be required out of school hours, it is doubtful if many children hurt themselves by study. STANLEY WINS GREAT RACE

San Francisco Dane Ran Heady Race From the Crack of Pistol

ALEX. ROWAN SPRAINED ANKLE AND RETIRED

Frank Baylis, Local Athlete, Takes Second From Burn by Six Laps

HOW THEY FINISHED

First—William Stanley, of San Francisco.
Second—Frank Baylis, of Victoria.
Third—Art Burn, of Calgary.
Alex. Rowan, of Nanaimo, dropped out with injured ankle.

William Stanley, known all over the Pacific Coast as the San Francisco whirlwind, last night, at the horseshow building at the fair ground, demonstrated that he is deserving of his title by defeating a class of field of the best long distance runners who have ever responded to a pistol shot in this city. The attendance was small, not more than 250 people being present.

Stanley covered the distance in the remarkably fast time of 54:48, and was only half a lap ahead of Frank Baylis, the crack local athlete, who made his debut into professional ranks last evening. Stanley ran a great race, and deserves credit for the way he judged his course from the first to the concluding mile.

After the race, Stanley had the following to say: "I said before the race that whoever beat me in this ten mile event would have to do better than fifty-five minutes, and those who listened wouldn't believe me, considering that I was a false alarm. I have lived up to my boast, and might say here that I feel as good as new."

When asked whether he would consider Terway's challenge, the fleet-footed youngster from the south declared that he would meet anyone on the coast at ten miles or any other distance.

The Start

After being introduced, the four runners posed for the ever busy camera men, and Promoter Wattellet fired the shot that started them on their hard grind. A little past 8:30 p. m. Stanley started off with a burst, and was closely followed by the field for the opening lap, and it looked as though they would all settle down for the balance of the first mile. Alex. Rowan, of Nanaimo, hit up a good clip, and was closely followed by the winner. Both these runners ran in spirit fashion for the first mile, with Frank Baylis and Burn a short distance in the rear. At the finish of the one mile, Rowan had the lead, and was setting a terrific pace, with the ever-speedy Stanley close at his heels. Baylis was running in easy fashion, and preferred to remain within reach of Stanley. Burn, however, was going at a steady easy clip, and at the beginning of the second mile Stanley and Rowan took a lap lead on the curbed, half-Calgary runner. At the end of the second mile, Stanley shook the Nanaimo boy, and got another lap to the good on Burn, who seemed content to set his own pace throughout. Meanwhile the Victoria runner was doing good work by remaining about half a lap behind the San Francisco whirlwind.

Rowan is Injured

At two miles and a half Alex. Rowan, who was running in good form, took a spill just as he was passing one of the sharp turns. He was hit by a heart-breaking sprint to overtake Stanley when he slipped and fell with a crash. He attempted to continue, but a badly swollen ankle prevented him, and after repeated attempts, he was forced to leave the track. Rowan used long-spiked shoes in this race, and to this is ascribed his fall.

The first five miles were completed in the fast time of 27:45, and the final half of the race was done even faster, the finishing time being 54:48. The victorious "Durable Dane" plodded along in great fashion, and at seven miles he took the fifth lap on the crack Alberta runner. Baylis ran a good race all through, and during the race he was never more than three-quarters of a lap in the rear, but the terrific sprints which Stanley maintained all the way were too much, and Baylis could not reduce the gap to any great extent. Once in a while the Victorian would close up a few yards, but Stanley was on his way again.

Burn's Last Hope

Many of the wise ones who watched Art Burn running all the way figured out that he was saving his speed until the last three miles, as Burn has been one of the speediest ten-milers in this part of the country, holding the British Columbia record for that distance—fifty-three minutes. When the beginning of the last three miles was announced Burn got busy and increased his speed in great fashion, and went out to take back some of his measure from Stanley. But the Dane stuck to Burn like a leech, and the Calgary runner could not get away from him, try as he would. It was in this part of the race that the scene became spectacular. Time after time Burn would let himself out with an burst, but Stanley had the speed as well, and after several desperate attempts Burn saw it was no use.

With but four more laps to go before the tape would be reached Stanley took one more lap on Burn, and it was plain to be seen that Stanley was in fair shape to win out. Many expected to see Frank Baylis, the popular local athlete, regain the distance between himself and Stanley, but it was not to be. When the last lap was announced enthusiasm reigned. Stanley, fresh as a daisy, stepped it out like a world-beater, finishing the last hundred with lots of speed. Not far behind came

has a smack of its own

Frank Baylis, who showed no signs of fatigue after the hard and wearisome grind, and he was greeted with a hearty round of cheers by his many local followers. Burn was out of it for good now, as both runners had won out by six laps and a few yards to spare. Both Stanley and Baylis deserve a great deal of credit for winning out from a runner like Art Burn, as he is considered one of the best at this, his favorite distance.

Asked what he had to say after the race Burn said that his stomach gave out on him at the early stage of the race, and he knew at five miles that he had no chance.

The race was run at the horse show building on a track that measures exactly twelve laps to the mile. Considerable comment was caused after the race by several, who got their counts mixed up. To keep tab on one hundred and twenty laps is no small matter, but all those in the centre of the ring compared their counts, which tallied. The time given out for each of the miles is as follows:

First mile, 5.20

Second mile, 11.40

Third mile, 17.45

Fourth mile, 22.55

Fifth mile, 27.45

Sixth mile, 32.05

Seventh mile, 37.38

Eighth mile, 43.00

Ninth mile, 48.42

Tenth mile, 54.48

Eleventh mile, 59.45

Twelfth mile, 64.45

SWARM OF SOCCER PLAYERS COMPETE

One Hundred and Seventy-six Athletes Line-up This Afternoon

Today is soccer day in Victoria for the season will be in full swing again commencing this afternoon.

All of the soccerites around the city have had a good rest since last year, and will commence today refreshed and eager for a good series of matches. All of the athletic grounds in the vicinity of Victoria will be busy this afternoon, and some of the grounds will be the scene of more than one game. Altogether there are one hundred and seventy-six soccer players scheduled to take positions on their various teams today in the first, second and junior divisions. Besides these there are a number of school games and scratch matches on, so that soccer players will be astir all over from now on.

The Victoria Wests will clash with the J. B. A. A. squad at the Oak Bay grounds in what will likely be the most interesting game of the day. This match will start promptly at 2.30 o'clock. The line-ups of both these teams have already been announced.

Down at Work Point grounds the crack Garrison eleven will mix things with the speedy Esquimalt athletes. The soldiers have been practicing for some time now, and are going to make this year a winning one right from the start. Meshers Esquimalt aggregation have a good line-up, and will strongly oppose the Garrison.

The two elevens that kick-off at Work Point follow:

Garrison..... Esquimalt.
McDonald..... Goal..... Foster
Elton..... Full Backs..... Cunningham
Sullivan..... O. Z. Other
Wyllie..... Half Backs..... Bowman
Buxton..... Malcolm
Degan..... Forward
Thomas (Capt.) Outside Left Sheriff
F. Buxton..... Inside Left..... Young
Wyndham..... Centre Forward..... Phillips
Carter..... Inside Right..... Brooks
Cullin..... Outside..... Jasper

Second Division Soccer

Four matches in the second division are scheduled to take place today, but many teams have hinted that they would default owing to not being able to get their proper teams together. However, many line-ups are announced, and it is about certain that there will be few games played in second division series. All teams not showing up at their respective grounds at the time specified will be according to the constitution forfeit two points in the standing of the league and no excuses will be considered. As the league now stands there are games scheduled right to the first week of the next year, and if any of the games are postponed, the league will have to be postponed.

Victoria Wests will line up against the Baraca team at Beacon Hill grounds, and a good game should be the result as both teams are reported to be evenly matched. Dave Tait's eleven have been practicing hard for some time, and expect the opening game to result in a victory for the green and white shirts. Fred Richardson, sr., will handle the whistle in this game, and will call the game at 2.30 o'clock.

The Victoria West line-up will be: Goal, Brown; full backs, J. Sloan and Meadon; halves, Creed, Colvin and Dave Tait (Capt.); forwards, George Okell, W. Sedger, Ross, Wright and J. F. Tait.

Out at the Work Point grounds the Empress team will meet the Fifth Regiment representatives. Captain Sharp, of the hotel team has an aggregation that looks like the goods. Referee McKenzie will call this game at the regular hour, 2.30, and both teams are requested to be on time. The Regiment team will be: Goal, Wilson; full backs, Blackmore and Dutoit; halves, Whittle, Fox and Kroeger; forwards, Richardson, Main, White, Smith and Benckey.

When the Y. M. C. A. dribbles meet the Esquimalts at Oak Bay they will be represented in strong fashion. The Esquimalt team has not yet been announced. Physical Director Findlay, of the Y. M. C. A., has selected the following: Goal, Carney; full backs, Wilson and Saydient;

halves, Ferris, Steele and Morrison; forwards, McKittrick, Lineham, Dinsdale, Main and Cropper. The official for this game will be Referee Campbell.

North Wards will meet Casey O'Rourke's kickers at the North Ward grounds, and although no goal posts have yet been installed on the grounds, some arrangement will be made for the initial game there. The teams will line up as follows:
North Ward. Position: Beacon Hill.
Balnes..... Goal..... Lovelidge
Cox..... Full Backs..... Shanik
Johnson..... Gregg
F. Sweeney..... Half Backs..... Patch
McDonald..... McDonald
Noel..... Scott
Frank..... Scott
Brown..... Forwards..... James
Harrison..... White
McGregor..... Connell
Taylor..... Pat O'Rourke
Brynjolfsson..... Wales
Referee, Walters.

Junior League

In the junior league there will be two matches only. The one will be at the lower Beacon Hill grounds when the North Ward juniors will line up against the High school. Jim Lorimer will be referee in this match. The High school will line up as follows: Goal, Johnson; full backs, Brown and Clay; halves, McKeown, Touhy and Clark; forwards, Pike, Baker, Willisroft, Day and Finland. At 3.05 at Beacon Hill the J. B. A. A. junior team will make their debut against the Beacon Hills. W. Mesher, of Esquimalt, will be referee. The J. B. A. A. line-up follows: Goal, Unsuqua; full backs, Scott and Kerpock; halves, Bendroit, Falconer and Robinson; forwards, Bedford, Carroll, Meldram, McDougall and C. Baylis.

SHORT JABS AT SPORT

The Rugby meet this afternoon at the Royal Park is being held under sanction of the B. C. Amateur Union. Secretary Brace having issued the necessary sanction yesterday afternoon.

Al Kaufman, the California heavyweight, has left for Philadelphia, where he has a six-round date with Jack O'Brien, the foxy Quaker.

Melville Long and Maurice McLaglag, the crack California tennis champions, were among the passengers on the Aorangi, which sailed yesterday for Australia. They will compete in the big tourney in Australia for the championship of the world.

Secretary Lucas, of the Empress Athletic club, has just returned from a six weeks' trip through the East. Mr. Lucas made the trip to his Eastern home, bringing back Mrs. Lucas and the Lucas juniors. They had a very pleasant sojourn while away.

Dave Tait has a good line-up to compete against the Baracas in the opening game in the second division, and the Wests should win out.

Sam Lorimer is reducing weight by degrees. Sam is training hard for the trip to California, and is showing good form these days. His J. B. A. A. team will kick against the V. W. A. A. eleven this afternoon.

Anyone doubting that athletics are slow in this city should take a jaunt around to the different athletic grounds today. The trip would be worth while.

At large number were present at the opening dance of the North Ward Athletic association, and, needless to say, all enjoyed themselves.

The A. O. F. soccer team does not play today. They have drawn a bye, and will not make their debut in soccer circles until this day week.

The Victoria Hockey club will hold an extraordinary meeting at the Balmoral hotel next Friday evening. All members are asked to be present.

Stanley Ketchel, the Michigan "Assassin" will battle with Jack Johnson, the negro champion, at San Francisco next Saturday. They will fight for the world's heavyweight championship.

The postponed annual meeting of the Victoria West Athletic association will take place on Monday evening at the Catherine street clubrooms.

PHILADELPHIA Oct. 8.—Miss Campbell, Scotland, beat Mrs. Fox, Philadelphia, 3 up 2 to play, in the semi-finals of the U. S. ladies' golf championship today.

PROVINCIAL ELECTIONS ACT

SAANICH ELECTORAL DISTRICT

TAKE NOTICE that objections have been filed with me against the following persons' names being retained on the List of Voters for the above district on the grounds set forth.

AND FURTHER TAKE NOTICE that I will, on Monday, the first day of November, 1909, at the hour of 10 o'clock in the forenoon, at Tennyson Avenue, Maywood, hold a Court of Revision for the purpose of hearing and determining said objections.

Unless the person objected to or some other Provincial Voter on his behalf appears at the said Court and satisfies me that the said objection is not well founded, I shall strike the name of such person off the said list.

Dated this 6th day of October, 1909.

WILLIAM GRAHAM, Registrar of Voters.

AMUSEMENTS

"Between the Gates of Canada"
 Miss Agnes Deans Cameron has just returned from Vancouver, where she gave her two splendid lectures, "From Whales to Whales" and "The Witchery of the Peace." Her services have been secured by the Young People's Society, of St. Andrew's Presbyterian church, and on Tuesday evening next the public will have an opportunity of hearing Miss Cameron deliver her third illustrated travel-talk, "Between the Gates of Canada."

Animated Pictures

The regular Saturday afternoon matinee of animated pictures and illustrated songs will be given at the Victoria theatre this afternoon. The pictures for the week are of the usual high standard, and have entertained large crowds every evening, and it is expected that this afternoon will be no exception. The entertainment will commence at 2:30 o'clock, and the doors will be opened half an hour earlier. To the matinee children will be admitted for five cents, and a pleasant hour and a half show will be given.

At Pantages Theatre

The matinee at 3 o'clock today and the two night shows will conclude the engagement of DoRonda, handcuft and strait jacket expert. Kabassi, magician, the Cornell-Fisher playlet "The Stockbroker and Coy DeTrickey Mimie," together with the week's regular house offerings. Next week a complete new list of vaudeville features will be presented, including a big dramatic production, trained animals, comedians, and in fact all that go with a high-class show.

Methodist Missions

MONTREAL, Oct. 8.—This morning's session of the Methodist mission board was taken up with the reading of the

report of Dr. Egerton Shore, assistant secretary of foreign missions, who was sent around the world two years ago, visiting and inspecting all Methodist missions en route. Dr. Shore confirmed his report to the conditions of missions in West China, thrilling his hearers with a description of the great work being carried on by missionaries in that part of China and the great possibilities of the work. He concluded by speaking strongly in favor of a proposition now before the board of buying the London Missionary society's mission at Ching Tung, which he characterized as a providential opening. Action on the question, however, was deferred on motion of Rev. Dr. Sutherland, general secretary of the Foreign Mission Board. Four missionaries and their wives, Dr. and Mrs. Service, Rev. and Mrs. Cobden, Mr. and Mrs. Stewart and Mr. and Mrs. Mortimer, were introduced to the board and cordially welcomed.

Capt. Bernier Busy

OTTAWA, Oct. 8.—Captain Bernier is still engaged in preparing the report on his work in the north for the Minister of Marine, and will not be able to address the Canadian club tomorrow, as was announced.

Trade in Canada

NEW YORK, Oct. 8.—Bradstreet's says of trade in Canada: All wholesale lines are busy and retail trade shows improvement. Drygoods continue active, and the demand for footwear is especially brisk. In iron and steel and hardware a good business is doing at firm prices. Collections range from fair to good. Business failures for the week ending with Thursday number 36, as compared with 22 last week and 41 last year.

Charged With Theft

TORONTO, Oct. 8.—Herbert Hood, charged with stealing fares from Toronto street railway boxes, pleaded not guilty, and elected to go before a jury in the police court this morning. Detectives testified to seeing Hood on various occasions pull coins out of a fare box and put them in his pocket.

It was also said that marked coins were found on him.

Calgary's Grain Trade

CALGARY, Oct. 8.—While marked progress has been made in the erection of Calgary's grain exchange, it is now realized that the structure will not be ready for occupancy for some little time, and as a result the grain companies have been forced to find temporary accommodation in the city's various office buildings. Owing to the large number of grain firms locating here and requiring offices, there is a demand for office accommodation that cannot be satisfactorily filled. Evidence of this appeared on every hand, many firms having to accept desk room in some of the more pretentious office suites.

Rates Will Probably Not Be Reduced. WASHINGTON, D. C., Oct. 8.—There

seems to be no probability that the war department will this year reduce newspaper telegraphic tolls over the Seattle-Alaska cable to one cent per word as was recently petitioned for by newspapers of Southeastern Alaska. Major-General J. Franklin Bell, chief of the general staff, to whom the petition was made on his recent tour of Alaska, returned to Washington early this week and yesterday said that he had given the matter sufficient attention to warrant him in saying that no change would be made in the near future.

Bad Milk Seller Arrested.

BELLINGHAM, Oct. 8.—Warrants were issued here yesterday for the arrest of R. J. Matheson and C. Staget on charges of selling watered milk in one case and skimmed milk in another. These are the first arrests since the local city health officer and a state

deputy determined to conduct a pure and good milk crusade here. Milk is now being tested daily by the health officer.

Lost Manager Is Found

FORT FRANCIS, Ont., Oct. 8.—Geo. W. Bowers, manager of the Armour company's packing plant at Omaha, Neb., who so mysteriously disappeared about a month ago from Omaha, was located here yesterday by Mr. Fisher, manager of the Duluth branch of the same firm. It is said that Bowers accompanied Mr. Fisher back to Duluth, Minn. It is reported that Mr. Bowers was to have been married very shortly to a Miss Rogers of Omaha, who is said to be quite prostrated over her fiancé's sudden departure. Mr. Bowers was apparently quite well while here and seemed to be taking things easy. He did not look like a man who had any trouble on his mind. He registered

under an assumed name at the hotel but for what reason is not known.

To Wage War Against Saloons.

BELLINGHAM, Oct. 8.—Statements made here yesterday by members of the Anti-Saloon league of the state indicate that this county will be the battle ground of the entire fighting force of the state organization during the next campaign, and it is planned to attempt to send a "dry" delegation from this section to the legislature during the next session.

Fewer Surplus Cars.

CHICAGO, Oct. 8.—The fortnightly bulletin of the American railway association, made public today, shows a reduction in the surplusage of cars to be 53,388, or one-third less than two weeks ago. The shortage total is 14,482 cars. The surplus is lower than at any time since the beginning of the depression of 1907.

VICTORIA REAL ESTATE

Orchards and Orchard Land

2 Silver Cups and over 2 Dozen Prizes won at the Provincial and Saanich Fairs proves the Quality of the Errington & Cantwell Orchards at Saanich. Read the description of the property—

Lot. Acre. Price.

1.—10.00—\$5,000.—About 7 acres in 4-year-old fruit trees, balance seeded down this year to Tim. & Clover. Trees consist of about 20 pears, 35 plums, 205 apples, and 315 Prunes. Splendid fruit land and trees show enormous growth. In many cases 7 feet this season. A good crop of pears, plums and pears is being gathered now.

2.—10.00; \$5,000.—About 2-3 in fruit, balance as above. Orchard consists of one-half similar to above and other half of 7-year-old apples, chiefly King and Wealthy. About 340 apples, 12 pears, 52 plums, 195 prunes. Other remarks similar to above, not as many trees, but one-half much older and approaching full bearing stage. A good well and windmill pump is on the lot.

3.—9.32; \$5,000.—Rather more than half in fruit. All apples, of which there are about 800 7 or 8 year old trees. Balance as in Lots 1 and 2 except for about 1 acre scrub which could be easily cleared for house site. This is corner block and has good roads south and west.

5.—6.69; \$1,675.—Good fruit land all cleared meadow.

6.—4.44; \$1,100.—Similar to Lot 5.

7.—5.11; \$1,400.—Similar to Lots 5 & 6. Seeded down to Tim. & Clover this year. Corner lot.

Lot. Acre. Price.

4.—26.00; \$9,500.—Consists of orchards, meadow land and land seeded down. Good 6-roomed house and house for outside help, capital large barn with stables, cow houses, fruit packing room, machinery, and trap sheds, &c. Good outbuilding, hen houses, granary, &c. Fruit trees consist of about 100 pears, 43 cherries, 550 apples, berries, quinces, peaches, nectarines, and small fruits including 1600 strawberry plants. These orchards have been all well cared for and have produced fruit which in competition at various exhibitions has taken many prizes.

BLOCK II.

1.—\$28; \$1450.—Partly cleared. About two acres almost cleared, all fine land. Very suitable for chicken ranch.

2.—\$25; \$2000.—All cleared and under cultivation partly in potatoes, carrots, and mangles. New Page Wire fence.

3.—\$24; \$3250.—All cleared and under cultivation partly in potatoes, carrots, and mangles. New Page Wire fence. New 5-roomed house.

All excellent fruit land and within from 1-4 to 1-2 mile of railway station and beach, and 14 miles from Victoria. Arrangements can be made to view this property by applying to us.

Price \$10,250

60 Acres Choice Land

WILL CONSIDER PLAN FOR NAVY

Dominion Cabinet to Take Up Programme at Today's Meeting

OTTAWA, Ont., Oct. 8.—The cabinet will tomorrow take up the question of the naval and defence proposals to be submitted to Parliament during the coming session. There has been no opportunity as yet to discuss in council the question in any detail, yesterday morning being the first since the return of Sir Frederick Borden and Hon. L. P. Brodeur from London at which there was anything like a full attendance of ministers. Meanwhile, however, several announcements have been made in the press, purporting to give an outline of what the government's proposals are. Needless to say until the government itself has definitely decided on the provisions on its naval defence bill, these announcements must be more or less of a speculative character.

In a general way, however, it may be stated that the coming session will see the preliminary steps taken for the speedy establishment of a Canadian navy, the first programme extending over several years and including the construction of perhaps twelve war vessels, embracing two or three cruisers of the Bristol class, torpedo boats and destroyers. Provision will also be made for the training of the men to man the new boats, this being done with the assistance of the British Admiralty through the loaning of training ships and officers.

It is understood that arrangements are being made for one of the older type of British cruisers to be brought to the Pacific Coast to serve the dual purpose of a fisheries protection cruiser and a training ship. A similar cruiser to serve the same purpose may be obtained for the Atlantic Coast.

The government contemplates a provision for the establishment of Canadian shipbuilding plants and dry-docks, capable of handling the construction or repair of all vessels required for the fleet, as well as ocean-going vessels for the Canadian marine. This is an important part of the whole scheme and a deputation representing British capitalists will be in the capital soon to discuss the question with the government. All these questions will require time for consideration and the devising of ways and means and no programme will be decided upon in any hasty or ill-considered manner.

The creation of a fleet with all its adjuncts and ramifications cannot be devised in any off-hand way. As to the probable outlay that will be involved in the proposals that will be submitted to Parliament, nothing very definite can be stated as yet, but it is understood that the total amount required for the carrying out of the initial programme of construction and training will probably run up to something over fifty millions, scattered over four or five years.

LORD NORTHCLEFFE IN NEWFOUNDLAND

GRAND FALLS, Nfld., Oct. 8.—An event which, in the opinion of the residents of Newfoundland means much for the commercial and industrial development of the colony, was celebrated here today in the first of two days' festivities in connection with the formal opening of the Northcliffe paper and pulp wood manufacturing industries.

Although a corporation known as the Anglo-Newfoundland Development Company is in charge of the enterprise, the leading spirit is Lord Northcliffe, the proprietor of the London Daily Mail and numerous other daily, weekly and monthly publications. In the development of the pulp wood and paper enterprise here, Lord Northcliffe's company has spent more than six million dollars and has established a plant that is excellent, in size, only by the paper mills at Millinocket, Maine.

This new town of Grand Falls has sprung up in the wilderness in the centre of Newfoundland. It is situated on the Exploits river, a stream which has its source in a chain of lakes in the southwestern corner of the colony, and flows in a northeasterly direction, emptying into Notre Bay on the northeast coast.

At a particular point in the river where the great mills have been erected, there is a heavy fall. The task of damming the river was an engineering problem, but it was finally accomplished at great expense and an immense water-power developed. Work was then begun on the erection of a series of mill buildings. These are now completed and are supplied with modern machinery.

Employing Thousands

Hundreds of men will be employed in the mills here, while thousands of lumbermen will find work in the timber tracts in the vicinity of Millinocket, owned by Lord Northcliffe and his associates. To house these men and their families comfortable and attractive dwellings have been built, churches, schools and a library are under construction, a hotel has been erected and a municipal water and sewerage system is in operation.

It is understood that the pulp and paper produced here will all be used by Lord Northcliffe in furnishing paper stock for his many publications.

Lord and Lady Northcliffe and a party of distinguished English and Newfoundland people came here to attend the formal opening of the town.

REMARKABLE NEWS UNKNOWN TO CANADA

The Freeman's Journal, of Dublin, Prints an Editorial Knocking the Dominion into a Cocked Hat.

LONDON, Oct. 8.—In the course of a remarkable editorial article, the object of which is to restrain the British people from emigrating to Canada, the Freeman's Journal says: "The reason Canada requires immigrants is that she must get inhabitants at any cost of suffering to the new-comers. When the wolves howl around the cowboys, there is need of foreign thousands if only to act as sort of vermin killers. Many of the new-comers will go mad of desperation, of loneliness and of the bitter hardships of life; many will fall in utter misery by the wayside; some will live through it all. The vermin-killing will one day all be done and the dreary empty spaces will begin to be really habitable by normal human beings.

"This is Canada's need. First, bands of victims romantically called pioneers, then, afterwards on the ruins of these, happier throngs who will reap joy where others sowed sorrow."

The Freeman's Journal also remarks that the free farms are situated in the dreary neighborhood of nature's wildest freaks.

Cottage for Sale Snap

On concrete foundation, 6 rooms, hall, extra kitchen and bath in basement; fire places in dining-room and drawingroom, electric light and gas installed, plumbing, new and complete; basement full size of house; concrete floor, drained, well lighted and dry, fine lot; location one of the best in the city; four excellent full-grown fruit trees, number of shade trees.

Prospects Good For Resumption of Friendly Relations Between Them.

WASHINGTON, D.C., Oct. 8.—Prospects for a resumption of friendly relations between Argentina and Bolivia are improving according to advices received at the International Bureau of American Republics, and the expectation now is that there will be a complete representation of all the American republics at the Pan-American congress to be held at Buenos Ayers in July next.

Vice Regal Party's Festivities.

WINNIPEG, Oct. 8.—Earl Grey is to be the guest of the Winnipeg Board of Trade at a luncheon this afternoon. In the evening the Governor-General and Countess Grey will be the guests of honor at a reception and ball at Government House.

Two More Auto Victims.

DESOTO, Mo., Oct. 8.—Henry Steinger head of a large contracting company of St. Louis was killed and Hugo Loeve, of East St. Louis, Ill., was seriously injured here last night when their auto overturned after a tire exploded. The machine was going at a high speed when it was wrecked.

Is Betting Bookmaking?

ALBANY, N. Y., Oct. 8.—Arguments on the question of whether or not betting is a violation of the anti-race track gambling laws, will be heard by the court of appeals on Monday. The appeal of the Kings county district attorney's office from a decision of the appellate division, which held that betting was not bookmaking, was on today's calendar, but by mutual consent it went over. The lower court ordered the discharge of Sol Lichten-

stein and Orlando Jones, who were indicted on a charge of bookmaking.

Football in Britain

LONDON, Oct. 7.—Today's football results are: First league—Notts county, 5; Woolwich Arsenal, 1. Southern league—Norwich City, 1; Brighton and Hove, 1.

DENVER, Col., Oct. 8.—Five thousand dollars worth of stamps and \$5,600 worth of unsigned banknotes were part of the booty contained in a mail pouch which mysteriously disappeared from a Union Pacific mail train in Wyoming some months ago, have been recovered by "Wild" Anderson, an emigrant, on the south fork of Green river and returned with other private papers to the post office inspectors in Denver. The stamps and banknotes had evidently been hidden in a ravine within three miles of the river, as a trail of stamps led from the ravine to the place where they were found. Rains had washed them into the river.

NOTICE TO CONTRACTORS.

Metal Work, Suspension Bridge, Lillooet.

The time for receiving tenders for the metal work of the Suspension Bridge, Lillooet, is hereby extended to noon of Saturday, the 28th day of August.

F. C. GAMBLE, Public Works Engineer.

Department of Public Works, B. C., 20th August, 1909.

NOTICE TO CONTRACTORS.

Government Office, Nakusp.

SEALED TENDERS, superscribed "Tender for Government Office and Police Quarters," will be received by the Honorable the Minister of Public Works up to noon on Thursday, the 28th day of October, 1909, for the erection and completion of a government office and police quarters at Nakusp, B. C.

Plans, specifications, contract and forms of tender may be seen on and after the 27th day of September, 1909, at the office of the Government Agent at Nelson; the Government Agent at Revelstoke; Government Agent, Kaslo; the Mining Recorder at Nakusp, and at the Department of Public Works, Victoria, B. C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for a sum equivalent to ten per cent. of the amount of the tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE, Public Works Engineer.

Public Works Department, Victoria, B. C., September 30, 1909.

LIQUOR LICENSE ACT, 1900.

1. Mrs. Nancy Irving hereby gives notice that one month from date hereof I will apply to the Superintendent of Provincial Police, at Victoria, for a transfer of the license to sell intoxicating liquors at the premises known as the Goldstream Hotel, situated at Goldstream, in the district of Esquimalt, from John Irving, deceased, to the undersigned.

Signed) MRS. NANCY IRVING.

Dated this 21st day of Sept., 1909.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the Estate of Reinhard Alexander Herzberg, Deceased, Intestate, and

In the Matter of the Official Administrator's Act.

Notice is hereby given that, under an order made by the Hon. the Chief Justice, dated the 24th day of September, 1909, I, the undersigned, was appointed administrator of the estate of the above deceased. All parties having claims against the said estate are requested to send particulars of their claims to me on or before the 28th day of October, 1909, and all parties indebted to the said estate are required to pay such indebtedness to me forthwith.

Dated at Victoria, B. C., this 28th day of September, 1909.

WILLIAM MONTGOMERY, Official Administrator.

Salving the Ohio

That Capt. Bisset and his salvage force in getting cargo steadily from the wrecked Ohio was the word brought by Capt. Batchelor, who piloted the steam-

Over C. P. R. Offices

I hereby give notice that on Monday the 1st day of November, A. D. 1909, at the hour of 10 o'clock in the forenoon, in the Maple Committee Room of the Parliament Buildings, Victoria, B. C., I shall offer for sale by public auction the Mineral Claims in the list hereinafter set out, of the persons in the said list hereinafter set out, of which Crown grants have been issued, for all unpaid taxes accrued and due and payable on the 30th day of June, 1909, and for the expenses of advertising this notice. If the taxes and expenses of advertising, as set out in said list, are not paid to me on or before the date of sale, the claim may be sold at the highest price offered, and a conveyance made therefor to the person offering the highest and latest bid, and the said money legally alienated to the Crown, in the event of the bid being no purchaser, or if the price offered shall not be sufficient to pay the taxes and expenses of advertising, the land shall absolutely revert to the Province, and the Crown grants thereof shall be deemed void.

Capt. Batchelor, who piloted the steamer Crown of Galicia from Prince Rupert to Comox, was in the city yesterday and brought word that the steamer was fixed to load wool at Brisbane. She is bunkering at Comox and will sail in a day or two in ballast for Australia, where she will load for London. The Crown of Galicia brought rails from Sydney, C. B., to Prince Rupert. While at Prince Rupert the Crown of Galicia sustained damage to deck fit-

Hindu Given Liberty

Chief Justice Hunter, of Vancouver, yesterday afternoon made an order releasing Joseph Cuandra Misra,

the Hindu who had been detained on the Empress of China by the immigration authorities since that vessel came into port a week ago Sunday. E. M. N. Woods, who made application for a writ of habeas corpus, showed that Miers was a tourist en route to the United States, and that therefore he did not come under the transportation act. D. G. Macdonell, who appeared for the federal department, said that there would be no objection to releasing the man providing he left Canada without delay. He had been held under the Dominion immigration regulations because he had stated to the immigration officers that he wished to engage in business in Canada. He did not have the required amount of money to be admitted. As regards Miers' detention on the Empress of China, it was stated yesterday that he was kept aboard the boat as it was thought he would be better quartered there than in the detention shed.
